External Powers and the Gulf Monarchies Jonathan Fulton,Li-Chen Sim,2018-09-03 The Gulf monarchies have been generally perceived as status quo actors reliant on the USA for their security but in response to regional events particularly the Arab Spring of 2011 they are pursuing more activist foreign policies which has allowed other international powers to play a larger role in regional affairs This book analyses the changing dynamic in this region with expert contributors providing original empirical case studies that examine the relations between the Gulf monarchies and extra regional powers including the USA Russia China India Brazil Turkey Japan South Korea France and the United Kingdom At the theoretical level these case studies explore the extent to which different international relations and international political economy theories explain change in these relationships as the regional political and security environment shifts Focusing on how and why external powers approach their relationships with the Gulf monarchies contributors ask what motivates external powers to pursue deeper involvement in an unstable region that has seen three major conflicts in the past 40 years Addressing an under analysed yet important topic the volume will appeal to scholars in the fields of international relations and international political economy as well as area specialists on the Gulf and those working on the foreign policy issues of the extra regional powers studied

Governance in Transition Ján Buček,Andrew Ryder,2015-04-15 This book looks at experience in government restructuring and devolution from a variety of national and international perspectives both within the European Union and elsewhere focusing on lessons learned and ways forward Since the 1980s there has been a global trend to give more power to local governments Even in Korea and the United Kingdom the most centralised countries in the OECD local government powers have increased with substantial economic benefits Within the European Union the principle of subsidiarity has enshrined the idea of devolution New member states particularly in central and eastern Europe have significantly created new and self sufficient local and regional governments However this process has been complicated Devolution is not a panacea in its own right and need not lead to economic growth While it can encourage savings through collaboration it can also lead to confused lines of authority and can complicate policy formation and implantation Devolution can strain local budgets forcing local governments to rely on their own sources of finance rather than central government transfers Suburbanisation rural depopulation the growth of some regions and the decline of others have raised new problems

particularly related to inter governmental cooperation among local governments and different levels of government In many cases an increased number of governments has increased administrative costs

French Cinema and the Great War Marcelline Block,Barry Nevin,2016-02-04 Even a century after its conclusion the devastation of the Great War still echoes in the work of artists who try to make sense of the political moral ideological and economic changes and challenges it spawned France the military major power of the Western Front carries the legacy of battles on its own soil and countless French lives lost defending the nation from the Central Powers It is no surprise that the impact of the First World War can still be seen in French films into the present day French Cinema and the Great War Remembrance and Representation provides the first book length study of World War I as it is featured in French cinema from the silent era to contemporary films Presented in three thematic sections Recording and Remembering the Great War Women at the Front and Interrogating Commemoration the essays in this volume explore the ways in which French film contributes to the restoration and modification of memories of the war Films such as La Grande Illusion King of Hearts A Very Long Engagement and Joyeux Noel are among those discussed in the volume s examination of the various ways in which film mediates personal and collective memories of this critical historical event This volume will be an invaluable resource not only to those interested in French Cinema or the cinema of the Great War but also to those interested in the impacts of war more generally on the cultural output of nations torn by the violence death and destruction of military conflict

The History of the French Revolution Adolphe Thiers,1883

The Alawis of Syria Michael Kerr,Craig Larkin,2015-01-12 Throughout the turbulent history of the Levant the Alawis a secretive resilient and ancient Muslim sect have aroused suspicion and animosity including accusations of religious heresy More recently they have been tarred with the brush of political separatism and complicity in the excesses of the Assad regime claims that have gained greater traction since the onset of the Syrian uprising and subsequent devastating civil war The contributors to this book provide a complex and nuanced reading of Syria s Alawi communities from loyalist gangs Shabiha to outspoken critics of the regime Drawing upon wide ranging research that

examines the historic political and social dynamics of the Alawi and the Syrian state the current tensions are scrutinised and fresh insights offered Among the themes addressed are religious practice social identities and relations to the Ba'ath party the Syrian state and the military apparatus The analysis also extends to Lebanon with a focus on the embattled Alawi community of Jabal Mohsen in Tripoli and state relations with Hizballah amid the current crisis *Frantz Fanon* Leo Zeilig, 2015-11-17 Frantz Fanon is best known as one of the leading twentieth century political thinkers and activists against colonialism and imperialism and as the author of the iconic book *Wretched of the Earth* Leo Zeilig here details the life of Fanon from his upbringing in Martinique to his wartime experiences and work in Europe and North Africa and frames his ideas and activism within the greater context of his career as a practising psychiatrist and his politically tumultuous surroundings The book covers the period of the Algerian War of Independence national liberation and what Fanon described the curse of independence Highlighting Fanon's role as the most influential theorist of third world liberation this book is an essential work for students academics and general readers

The Algorithmic Society Marc Schuilenburg, Rik Peeters, 2020-12-29 We live in an algorithmic society Algorithms have become the main mediator through which power is enacted in our society This book brings together three academic fields Public Administration Criminal Justice and Urban Governance into a single conceptual framework and offers a broad cultural political analysis addressing critical and ethical issues of algorithms Governments are increasingly turning towards algorithms to predict criminality deliver public services allocate resources and calculate recidivism rates Mind boggling amounts of data regarding our daily actions are analysed to make decisions that manage control and nudge our behaviour in everyday life The contributions in this book offer a broad analysis of the mechanisms and social implications of algorithmic governance Reporting from the cutting edge of scientific research the result is illuminating and useful for understanding the relations between algorithms and power Topics covered include Algorithmic governmentality Transparency and accountability Fairness in criminal justice and predictive policing Principles of good digital administration Artificial Intelligence AI in the smart city This book is essential reading for students and scholars of Sociology Criminology Public Administration Political Sciences and Cultural Theory interested in the integration of algorithms into the governance of society

The Politics of Crisis in Europe Mai'a K. Davis Cross, 2017-03-02 The Politics of Crisis in Europe explores the resilience of the European Union in the face of repeated crises perceived to threaten its very existence While it is often observed after the fact that these crises serve as opportunities for integration this is the first critical analysis to suggest that we cannot fully understand the nature and severity of these crises without recognising the role of societal reaction to events and the nature of social narratives about crisis especially those advanced by the media Through a close examination of the 2003 Iraq crisis the 2005 constitutional crisis and the 2010-12 Eurozone crisis this book identifies a pattern across these episodes demonstrating how narratives about crises provide the means to openly air underlying societal tensions that would otherwise remain under the surface impeding further integration

A new genre for television? Justin Hardy, 2025-05-27 In A New Genre for Television filmmaker Justin Hardy argues the dramatised history documentaries broadcast by British public service channels in the 2000s constituted a distinct television genre Offering a vital distinction between docudramas and drama documentaries Hardy contributes to the field of television history through exclusive interviews with key figures from BBC and Channel 4 many of whom have never been publicly interviewed before and envisions a future model for the portrayal of national histories on screen *Women Artists in Paris, 1850-1900* Laurence Madeline, Pauline Willis, 2017-01-01 Paris was the epicenter of art during the latter half of the nineteenth century luring artists from around the world with its academies museums salons and galleries Despite the city's cosmopolitanism and its cultural stature Parisian society remained strikingly conservative particularly with respect to gender Nonetheless many women painters chose to work and study in Paris at this time overcoming immense obstacles to access the city's resources *Women Artists in Paris 1850-1900* showcases the remarkable artistic production of women during this period of great cultural change revealing the breadth and strength of their creative achievements Guest Curator Laurence Madeline Chief Curator at Musées d'art et d'histoire Geneva has selected close to seventy compelling paintings by women of varied nationalities ranging from well known artists such as Berthe Morisot Mary Cassatt and Rosa Bonheur to lesser known figures such as Kitty Kielland Louise Breslau and Anna Ancher

Emerging Approaches for Typing, Detection, Characterization, and Traceback of *Escherichia coli*, 2nd Edition Pina M. Fratamico, Chitrita DebRoy, David S. Needleman, 2018-05-02 Pathogenic *Escherichia coli* strains cause a large number of diseases in humans including diarrhea hemorrhagic colitis hemolytic uremic syndrome urinary tract infections and neonatal meningitis while in animals they cause diseases such as calf scours and mastitis in cattle post weaning diarrhea and edema disease in pigs and peritonitis and airsacculitis in chickens The different *E. coli* pathotypes are characterized by the presence of specific sets of virulence related genes Therefore it is not surprising that pathogenic *E. coli* constitutes a genetically heterogeneous family of bacteria and they are continuing to evolve Rapid and accurate molecular methods are critically needed to detect and trace pathogenic *E. coli* in food and animals They are also needed for epidemiological investigations to enhance food safety as well as animal and human health and to minimize the size and geographical extent of outbreaks The serotype of *E. coli* strains has traditionally been determined using antisera raised against the 180 different O somatic and 53 H flagellar antigens However there are many problems associated with serotyping including it is labor intensive and time consuming cross reactivity of the antisera with different serogroups occurs antisera are available only in specialized laboratories and many strains are non typeable Molecular serotyping targeting O group specific genes within the *E. coli* O antigen gene clusters and genes that are involved in encoding for the different flagellar types offers an improved approach for determining the *E. coli* O and H groups Furthermore molecular serotyping can be coupled with determination of specific sets of virulence genes carried by the strain offering the possibility to determine O group pathotype and the pathogenic potential simultaneously Sequencing of the O

antigen gene clusters of all of the known O groups of E coli is now complete and the sequences have been deposited in the GenBank database The sequence information has revealed that some E coli serogroups have identical sequences while others have point mutations or insertion sequences and type as different serogroups in serological reactions There are also a number of other ambiguities in serotyping that need to be resolved Furthermore new E coli O groups are being identified Therefore there is an essential need to resolve these issues and to revise the E coli serotype nomenclature based on these findings There are emerging technologies that can potentially be applied for molecular serotyping and detection and characterization of E coli On a related topic the genome sequence of thousands of E coli strains have been deposited in GenBank and this information is revealing unique markers such as CRISPR clustered regularly interspaced short palindromic repeats and virulence gene markers that could be used to identify E coli pathotypes Whole genome sequencing now provides the opportunity to study the role of horizontal gene transfer in the evolution and emergence of pathogenic E coli strains Whole genome sequencing approaches are being investigated for genotyping and outbreak investigation for regulatory and public health needs however there is a need for establishing bioinformatics pipelines able to handle large amounts of data as we move toward the use of genetic approaches for non culture based detection and characterization of E coli and for outbreak investigations

Mathematics and Social Utopias in France Simon Altmann, Eduardo L. Ortiz, 2013-03-30 A mathematician a social reformer within Saint Simon s utopian socialist movement and later a prosperous banker Olinde Rodrigues is a fascinating figure of the city of Paris in the first half of the nineteenth century Since archival resources on Rodrigues are not abundant and since they are scattered throughout a variety of archives studying him presents difficult historiographic challenges These are met for the first time in this book written by a team of mathematicians historians of mathematics and historians of culture and society for people interested in any of these fields

The Franco-Algerian War through a Twenty-First Century Lens Nicole Beth Wallenbrock, 2020-02-20 The Franco Algerian War 1954 62 remains a powerful international symbol of Third Worldism and the finality of Empire Through its nuanced analysis of the war s depiction in film *The Franco Algerian War through a Twenty First Century Lens* locates an international reckoning with history that both condemns and exonerates past generations Algerian and French production partnerships such as *Hors la loi* *Outside the Law* Rachid Bouchareb 2010 and *Loubia Hamra* *Bloody Beans* Narimane Mari 2013 are one of several ways citizens collaborate to unearth a shared history and its legacy Nicole Beth Wallenbrock probes cinematic discourse to shed new light on topics including the media revelation of torture and atomic bomb tests immigration s role in the evolution of the war s meaning and the complex relationship of the intertwined film cultures The first chapter summarizes the Franco Algerian War in 20th century film thus grounding subsequent queries with Algeria s moudjahid or freedom fighter films and the French new wave s perceived disinterest in the conflict This book is an invaluable resource for scholars seeking to understand cinema s role in re evaluating war and reconstructing international memory

The Kyrenia Ship Final Excavation Report, Volume I Susan Womer Katzev,Helena Wylde Swiny,2022-12-01 The Kyrenia Ship a Greek merchantman built around 315 BC which sank off the north coast of Cyprus was excavated between 1968 and 1972 under the direction of Michael L Katzev of the University of Pennsylvania and Oberlin College The importance of this ship lies in the exceptionally well preserved hull that provided new insights into ancient shipbuilding as well as the cargo it carried The hold was stacked with transport amphoras of various types made on Rhodes with a few examples from Samos Kos Knidos and Cyprus supplemented by a consignment of millstones iron billets and almonds The cabin pottery from Rhodes also suggests this was the vessel's home port a conclusion supported by most of the scientific ceramic analyses Its trade route included Rhodes Cyprus and the Levant with perhaps Egypt as a final destination This volume provides a detailed history of the excavation followed by definitive studies of the amphora cargo and the pottery associated with shipboard life Some of the amphora stamps suggest that the ship sank between 294 and 291 BC dates corroborated by the cabin wares The repetition of four drinking cups kantharoi oil containers gutti wine measures olpai as well as bowls and saucers suggests that the ship was sailed by a crew of four Seven bronze coins were recovered five minted in the name of Alexander the Great and one well known type of Ptolemy I produced only on Cyprus

Radicalization in Western Europe Carolin Görzig,Khaled Al-Hashimi,2014-09-15 Employing a theoretical framework based on the concept of identity loss this book seeks to understand why increased integration has stimulated greater radicalization among the Muslim populations in Western Europe Through extensive field research in four European countries the UK the Netherlands Germany and France the authors investigate three key questions 1 Why are 2nd and 3rd generations of Muslims in Europe more radical than their parents 2 Why does Europe experience more home grown terrorism today than thirty or forty years ago 3 Why do some European countries feature more radical Muslim communities than others The book reveals that these three puzzling questions can be solved when analyzing the loss of individuality in the face of integration and identification with European society While Individualist and structural approaches fail to explain radicalization of Muslims in Europe this study by framing radicalization through coupling the public discourse with identity loss provides a much needed insight into the process of radicalization Explaining radicalization and gaining an understanding of the drivers of radicalization is crucial to prevent and mitigate intercultural alienation to further develop immigration policies redress integration failures as well as to avoid dangerous oversimplifications This book contributes not only to understanding why greater integration is matched by increasing radicalization but its insights also contribute to developing ideas about how radicalization can be prevented or overcome and integration policies can be enhanced This book will be of much interest to students of terrorism and counter terrorism radical Islam war and conflict studies European politics IR and security studies

The History of French

Literature on Film Kate Griffiths, Andrew Watts, 2020-12-24 French novels plays poems and short stories however temporally or culturally distant from us continue to be incarnated and reincarnated on cinema screens across the world From the silent films of Georges Méliès to the Hollywood production of Gustave Flaubert's *Madame Bovary* directed by Sophie Barthes *The History of French Literature on Film* explores the key films directors and movements that have shaped the adaptation of works by French authors since the end of the 19th century Across six chapters Griffiths and Watts examine the factors that have driven this vibrant adaptive industry as filmmakers have turned to literature in search of commercial profits cultural legitimacy and stories rich in dramatic potential The volume also explains how the work of theorists from a variety of disciplines literary theory translation theory adaptation theory can help to deepen both our understanding and our appreciation of literary adaptation as a creative practice Finally this volume seeks to make clear that adaptation is never a simple transcription of an earlier literary work It is always simultaneously an adaptation of the society and era for which it is created Adaptations of French literature are thus not only valuable artistic artefacts in their own right so too are they important historical documents which testify to the values and tastes of their own time

Qanat Dale Lightfoot, 2024-08-22 Qanats are ubiquitous yet unseen and a clever way to create streams where none exist in nature For 3 000 years they have made life possible in impossible places and still sustain life and livelihoods in many countries today After 30 years of field research Dale Lightfoot provides the first comprehensive study of the qanat and sheds new light on their unique locations and distribution their origins and history their ecology current status and use Qanats are remarkably engineered underground aqueducts using gravity to bring water to villages and towns where reliable flowing surface water is scarce or absent Although an ancient technology more than 46 000 of them still flow around the world today with their sustainable nature making them a focus of renewed interest Richly illustrated with images and a series of original maps this is the most complete record to date of the locations and distribution of qanats worldwide including examples from the Middle East North Africa Europe Central Asia China India Mexico and South America
