**Official Gazette of the United States Patent and Trademark Office ,2006      The Armenian Diaspora and Stateless Power** Talar Chahinian,Sossie Kasbarian,Tsolin Nalbantian,2023-11-02 From genocide forced displacement and emigration to the gradual establishment of sedentary and rooted global communities how has the Armenian diaspora formed and maintained a sense of collective identity This book explores the richness and magnitude of the Armenian experience through the 20th century to examine how Armenian diaspora elites and their institutions emerged in the post genocide period and used stateless power to compose forms of social discipline Historians cultural theorists literary critics sociologists political scientists and anthropologists explore how national and transnational institutions were built in far flung sites from Istanbul Aleppo Beirut and Jerusalem to Paris Los Angeles and the American mid west Exploring literary and cultural production as well as the role of religious institutions the book probes the history and experience of the Armenian diaspora through the long 20th century from the role of the fin de si cle migr Armenian press to the experience of Syrian Armenian asylum seekers in the 21st century It shows that a diaspora s statelessness can not only be evidence of its power but also how this stateless power acts as an alternative and complement to the nation state      Kurdish Art and Identity Alireza Korangy,2020-09-07 Folklore has been a phenomenon based on nostalgic and autochthonous nuances conveyed with a story telling technique with a penchant for over playing and nationalistic pomp and circumstance often with significant consequences for societal poetic and cultural areas These papers highlight challenges that have an outreaching relationship to the regional rhetorical and trans rhetorical devices and manners in Kurdish folklore which subscribes to an ironic sense of hope all the while issuing an appeal for a largely unaccomplished nationhood simultaneously insisting on a linguistic solidarity In a folkloric literature that has an overarching theory of poetics perhaps even trans figurative cognitive poetics due to the multi faceted nature of its application and the complexity of its linguistic structure the relationship of man and less frequently woman with others takes center stage in many of the folkloric creations Arts are not figurative representations of the real in the Kurdish world they are the real      Return to Point Zero Murat Somer,2022-07-01 How did the Turkish Kurdish Conflict arise Why have Turks and Kurds failed for so long to solve it How can they solve it today How can social

scientists better analyze this and other protracted conflicts and propose better prescriptions for sustainable peace Return to Point Zero develops a novel framework for analyzing the historical structural and contemporary causes of ethnic national conflicts highlighting an understudied dimension politics Murat Somer argues that intramajority group politics rather than majority minority differences better explains ethnic national conflicts Hence the political ideological divisions among Turks are the key to understanding the Turkish Kurdish Conflict though it was nationalism that produced the Kurdish Question during late Ottoman imperial modernization political elite decisions by the Turks created the Kurdish Conflict during the postimperial nation state building Today ideational rigidities reinforce the conflict Analyzing this conflict from premodern times to today Somer emphasizes two distinct periods the formative era of 1918 1926 and the post 2011 reformatory period Somer argues that during the formative era political elites inadequately addressed three fundamental dilemmas of security identity and cooperation and includes a discussion of how the legacy of those political elite decisions impacted and framed peace attempts that have failed in the 1990s and 2010s Return to Point Zero develops new concepts to analyze conflicts and concrete conflict resolution proposals Picturing the Ottoman Armenian World David Low, 2022-06-30 The Armenian

contribution to Ottoman photography is supposedly well known with histories documenting the famous Ottoman Armenian run studios of the imperial capital that produced Orientalist visions for tourists and images of modernity for a domestic elite Neglected however have been the practitioners of the eastern provinces where the majority of Ottoman Armenians were to be found with the result that their role in the medium has been obscured and wider Armenian history and experience distorted Photography in the Ottoman East was grounded in very different concerns with the work of studios rooted in the seismic social political and cultural shifts that reshaped the region and Armenian lives during the empire's last decades The first study of its kind this book examines photographic activity in three sites on the Armenian plateau Erzurum Harput and Van Arguing that local photographic practices were marked by the dominant activities and movements of these places it describes a medium bound up in educational endeavours mass migration and revolutionary politics The camera both responded to and became the instrument of these phenomena Light is shone on previously unknown practitioners and more vitally a perspective gained on the communities that they served The book suggests that by contemplating the ways in which photographs were made used circulated and seen we might form a picture of the Ottoman Armenian world **Historical**
