Exam 70-646 Windows Server 2008 Server Administrator covers these topics: Planning for Server Deployment, Planning for Server Management, Monitoring and Maintaining Servers, Planning Application and Data Provisioning, Planning for Business Continuity and High Availability. We give you knowledge, information relevant to the exam specifications. To be able to succeed in the real exam, you'll need to apply your earned knowledge to the question scenarios. Many of the exam questions are written to be less straightforward. They tend to be framed within the context of short scenarios. The exam is not too difficult. However, coverage is very comprehensive; a wide range of topics are presented in the official topic lists. The exam

does not ask you to answer hundreds of questions In other words only a small fraction of the official topics will be presented This ExamFOCUS book focuses on the more difficult topics that will likely make a difference in exam results The book is NOT intended to guide you through every single official topic You should therefore use this book together with other reference books for the best possible preparation outcome **MCTS Windows Server 2008 Network Infrastructure**
