become an established method to evaluate decisions in a range of disciplines including history psychology and literature Elke
Reinhuber argues it also has valuable applications in the fine arts and popular media A fascination with the path not taken is
a logical consequence of a world saturated with choices Art which provokes and explores these tendencies can help to
recognise and contextualise the impulse to avoid or endlessly revisit individual or collective decisions Reinhuber describes
the term in broad strokes through the disciplines to show how counterfactualism finds shape in contemporary art forms
especially in photography film and immersive and interactive media art such as 360 content virtual reality and augmented
reality She analyses the different stages of counterfactuals with examples where artists experience counterfactual thoughts
in the process of art production explore these thoughts in their artwork and where the artwork itself evokes counterfactual
thoughts in the audience A fascinating exploration for scholars and students of art media and the humanities and anybody
else with an interest in choices the art of decisionmaking and counterfactualism *Naval Register* ,1904 United States
