**Waste** Eiko Maruko Siniawer,2018-10-15 In Waste Eiko Maruko Siniawer innovatively explores the many ways in which the Japanese have thought about waste in terms of time stuff money possessions and resources from the immediate aftermath of World War II to the present She shows how questions about waste were deeply embedded in the decisions of everyday life reflecting the priorities and aspirations of the historical moment and revealing people's ever changing concerns and hopes Over the course of the long postwar Japanese society understood waste variously as backward and retrogressive an impediment to progress a pervasive outgrowth of mass consumption incontrovertible proof of societal excess the embodiment of resources squandered and a hazard to the environment Siniawer also shows how an encouragement of waste consciousness served as a civilizing and modernizing imperative a moral good an instrument for advancement a path to self satisfaction an environmental commitment an expression of identity and more From the late 1950s onward a defining element of Japan's postwar experience emerged the tension between the desire for the privileges of middle class lifestyles made possible by affluence and dissatisfaction with the logistics costs and consequences of that very prosperity This tension complicated the persistent search for what might be called well being a good life or a life well lived Waste is an elegant history of how people lived how they made sense of gave meaning to and found value in the acts of the everyday **Momo & the Grey Gentlemen** ,1995 Performances of Michael Ende's Momo directed by Jo Anne Sarre performed by Waldorf Community Theatre program list numerous cast and crew members main cast Kyra Wood Peter Surguy Jo Avery Jessie Keath Orion Marinoff Derek Allen Garry Gilroy John McManus John Crouch Derek Forsythe performances held at Stirling

**Global Perspectives on Death in Children's Literature** Lesley D.

Clement, Leyli Jamali, 2015-07-30 This volume visits death in children's literature from around the world making a substantial contribution to the dialogue between the expanding fields of Childhood Studies, Children's Literature and Death Studies. Considering both textual and pictorial representations of death, contributors focus on the topic of death in children's literature as a physical reality, a philosophical concept, a psychologically challenging adjustment, and/or a social construct. Essays covering literature from the US, Mexico, El Salvador, Guatemala, Canada, the UK, Sweden, Germany, Poland, Bulgaria, Brazil, Czechoslovakia, the Soviet Union, India, and Iran display a diverse range of theoretical and cultural perspectives. Carefully organized sections interrogate how classic texts have been adapted for the twenty-first century, how death has been politicized, ritualized, or metaphorized, and visual strategies for representing death, and how death has been represented within the context of play. Asking how different cultures present the concept of death to children, this volume is the first to bring together a global range of perspective on death in children's literature and will be a valuable contribution to an array of disciplines.

*Treading Softly* Thomas Princen, 2010-02-19 How to

imagine and then realize an ecological order based on living within our biophysical means. We are living beyond our means, running up debts, both economic and ecological, consuming the planet's resources at rates not remotely sustainable. But it's hard to imagine a different way. How can we live without cheap goods and easy credit? How can we consume without consuming the systems that support life? How can we live well and live within our means? In *Treading Softly*, Thomas Princen helps us imagine an alternative. We need, he says, a new normal, an ecological order that is actually economical, with resources that embraces limits, that sees sustainable living not as a lifestyle but as a long-term connection to fresh, free-flowing water, fertile soil, and healthy food. The goal would be to live well by living well within the capacities of our resources. Princen doesn't offer a quick fix; there's no list of easy ways to save the planet, to hang on the refrigerator. He gives us instead a positive

realistic sense of the possible with an abundance of examples concepts and tools for imagining then realizing how to live within our biophysical means      **The Emotional Politics of the Alternative Left** Joachim C.
