Lokhande, 2014 In India micro finance is a movement with the underlying objective of helping poor households to have access to financial services including credit at affordable cost Many of those who promote micro finance believe that such access will help poor people get out of poverty For others micro finance is a way to promote economic development employment and growth through the support of micro entrepreneurs and small businesses Women in India are typically poorer than men and have fewer options for earning a livelihood that provides adequate food housing and education for their children However they are also viewed as the change agents of the family Women are more likely to invest their earnings into improving the lives of the families By encouraging women to take charge of their futures micro finance institutions can impact families and whole communities However the pace of women empowerment in India through micro finance is slow due to a variety of constraints which urgently need to be rooted out This book examines some of the issues that need to be addressed in order to empower the lives of India's women through micro finance **Microfinance and Women Empowerment: A Study with Special Reference to Ramapuram Grama Panchayat** Laly Antoney , Prem Jose Vazhacharickal, Microfinancing expanded rapidly in India over the past two decades India has witnessed innovations in financial options for Micro Finance Institutions MFI the addition of new products and services such as insurance and pension schemes and the entry of Internet kiosks to rural villages It has been a recognised fact that microcredit is the most effective instrument of dealing with two crucial social issues i.e poverty alleviation and women empowerment The experience of

Microfinance and Women's Empowerment in Bangladesh Faraha Nawaz, 2019-03-01 This book examines the effects of policies and practices of microfinance NGOs in empowering rural women in Bangladesh Nawaz seeks to unpack the untold narratives of women s empowerment and to fill the current knowledge gap in this area The book goes beyond the narrow minimalist evaluation of microfinance that only focuses on women s economic empowerment through their ability to access financial resources Rather it looks at whether and how microfinance empowers women in a holistic manner across the socio cultural psychological and political spheres of life The author argues that microfinance reduces levels of poverty which means that women are better able to meet their practical gender needs however they are not empowered unless they are also able to meet their strategic

gender needs including the transformation of gender power relations from the household to state arenas Therefore the book argues that in order to bring about higher levels of empowerment microfinance programs must be combined with other services such as financial literacy socioeconomic training education healthcare social mobilization and legal support Microfinance and Women s Empowerment in Bangladesh will be of interest to students and scholars across a range of disciplines including Gender Studies Development Studies and Politics

Women's Entrepreneurship and Microfinance Chiranjib Neogi,Amit Kumar Bhandari,Sudipto Ghosh,2018-03-06 This book offers a critical perspective on the issues related to women s empowerment microfinance and entrepreneurship in India Written by distinguishing experts in this field this book highlights women s empowerment which is a process of entrusting power to an individual on the control over resources and decisions However these two factors are less effective in a society where religion and cultural dominance is high The book sheds light on the social security measures undertaken by the government aiming to the right to work helped women who are bounded by social restrictions Over time there is a shift in rural occupational structure towards non farm activities which is largely distress driven self employment Access to credit is a great source to provide self employment that develops self esteem among women and uplift their position The book highlights the discrimination against women entrepreneurs in access to credit led to gender biased entrepreneurial society Association with self help groups SHGs has made women more socially empowered SHG members help them to change their life in a positive manner through micro entrepreneurial activities The book has emphasized on the role of microfinance which has served the poor to become financially self reliant It is observed that for second generation borrowers the impact of microfinance seems to fizzle out where MFIs who are gaining efficiency are diverting their objective of servicing poor signalling a sign of mission drift

occupation structure under SHGs have also influenced the standard of living and empowerment level significantly Are Pakistan's Women Entrepreneurs Being Served by the Microfinance Sector? Mehnaz Safavian, Aban Haq, 2013-07-19

Financial services are important for women who are starting and growing a business but in Pakistan microfinance providers MFIs are not reaching Pakistan's businesswomen. Only 59 percent of microfinance clients are women yet the majority of these loans are passed on to the male members of the household: husbands, fathers and sons. The practice of passing on loans to male household members is quite widespread; women may be bearing all the transaction costs and risks of accessing loans but are not the final beneficiaries. Second, a very low proportion of female microfinance clients are entrepreneurs. The report explores why businesswomen in Pakistan may not be using microfinance products to meet their start-up and working capital requirements in spite of identifying access to finance as a key constraint to their business operations. Against this backdrop, access to finance remains the biggest challenge for a woman who wants to start or grow a business. Yet less than a quarter of the entrepreneurs identified through business development service providers were currently borrowing from microfinance lenders. Even among those entrepreneurs that borrow, dissatisfaction is high. Why? Women borrower-entrepreneurs are not able to access individual loan products but instead are consistently relegated to group lending. But group loans are very costly for a woman who is running a business and the loans are too small to fulfill working capital needs. Businesswomen are rarely given the opportunity to access individual loan products which are usually offered exclusively to male borrowers and women are not given opportunities to graduate from group loans to individual loans over time. Lending practices often are discriminatory, requiring husbands' permission; male guarantors; and unmarried women are rarely considered as potential clients. Although MFIs understand that women's inclusion is integral to the objectives of microfinance, the practice of passing on loans raises serious issues about consumer protection for women clients and the best and most effective solutions to these challenges could and should come from the sector itself. Designing better products that reach the needs of emerging women entrepreneurs could prove to be good business, achieving double bottom line objectives. Investing in financial literacy and education of both men and women borrowers can help curb the demand for pass-through loans and help lower risks associated with deceptive practices.

Making Women Pay Smitha Radhakrishnan, 2021-10-25 In Making Women Pay Smitha Radhakrishnan explores India's microfinance industry which in the past two decades has come to saturate the everyday lives of women in the name of state led efforts to promote financial inclusion and women's empowerment Despite this favorable language Radhakrishnan argues microfinance in India does not provide a market oriented development intervention even though it may appear to help women borrowers Rather this commercial industry seeks to extract the maximum value from its customers through exploitative relationships that benefit especially class privileged men Through ethnography interviews and historical analysis Radhakrishnan demonstrates how the unpaid and underpaid labor of marginalized women borrowers ensures both profitability and symbolic legitimacy for microfinance institutions their employees and their leaders In doing so she centralizes gender in the study of microfinance reveals why most microfinance programs target women and explores the

exploitative implications of this targeting **Micro-Credit, Poverty and Empowerment** Neera Burra,Joy Deshmukh-Ranadive,Ranjani K Murthy,2005-11-05 Two persistent problems that affect a significant portion of Indian women are poverty and violation of their human rights In recent years micro credit has come to be viewed as a vital tool to ameliorate both conditions However there are few studies in the Indian context which test the validity of the assumption that there is a linear link between micro credit poverty reduction and women s empowerment This important and thought provoking volume brings together revealing case studies of micro credit interventions made by six non governmental and quasi governmental bodies in five states of peninsular India several of which have been supported by the United Nations Development Programme UNDP The six case studies are diverse in terms of their socio economic and geo political contexts the nature and ideological orientation of the intermediary organizations the groups targeted by the projects exclusively women or men and women and the life spans of the projects Despite their differences all the studies offer useful lessons on the institutional structures and processes that do or do not facilitate women s empowerment and poverty reduction while exploring the potential and limitations of micro credit to achieve these twin goals The Microfinance Mirage Esayas Bekele Geleta,2016-03-09 Microfinance has long been considered a development strategy that can correct the failure of the global credit market and address the financial needs of the poor enabling them to create and run profitable business enterprises The Microfinance Mirage argues that this neo liberal oriented analysis overemphasises the economic argument whilst ignoring the cultural roots of inequality and subordination Drawing on ethnographic research conducted among rural credit clients in the Northern region of Ethiopia Esayas Bekele Geleta provides a nuanced critical analysis of microfinance challenging the common assumption that it facilitates the building of social capital poverty reduction and the empowerment of women Making a unique contribution to our further understanding of the microfinance industry the research shows that in some cases microfinance can result in the disintegration of pre existing relationships and in the disruption and destruction of the livelihoods of the poor Exploring the impact of microfinance in one of the poorest regions of sub Saharan Africa this book demonstrates its potential and problems and shows the complex and contradictory social and cultural environments in which projects are often located *IMPACT OF MICRO-FINANCE ON RURAL SCHEDULED CASTE WOMEN EMPOWERMENT THROUGH SELF-HELP GROUPS: A STUDY* Dr. C. Arunamma & Prof. G.Venkata Ramana,2022-11-29 The concept of Empowerment is a multi faceted multi dimensional and multi layered The women s empowerment is a process by which women gain greater share of control over resource material human and intellectual like knowledge information ideas and financial resources like money and access to money and control over decision making in the home community society and nation 1 The Proceedings of the Third International Women s Conference held at Nairobi in the year 1985 paved the way for emergence of concept of women empowerment and the statesmen of great vision perceived it as a powerful tool for re distribution of social power and control of resources in favor of women **Islamic Microfinance** Hussain Mohi ud Din
