StarBriefs 2001 ,2012-12-06 This compilation probably looks like one of the craziest things a human being could spend his or her time on Yet nobody would wonder at someone taking a short walk every day after twenty five years that person would have covered a surprisingly long distance This is exactly the story behind this list which appeared first as a few pages within the directory StarGuides or whatever name it had at that time and as a distinct sister publication since 1990 The idea behind this dictionary is to offer astronomers and related space scientists practical assistance in decoding the numerous abbreviations acronyms contractions and symbols which they might encounter in all aspects of the vast range of their professional activities including traveling Perhaps it is a bit paradoxical but if scientists quickly grasp the meaning of an acronym solely in their own specific discipline they will probably encounter more difficulties when dealing with adjacent fields It is for this purpose that this dictionary might be most often used Scientists might also refer to this compilation in order to avoid identifying a project by an acronym which already has too many meanings or confused definitions

Capital Flows Along the Mekong Jonathan L. Golin,1996 Myanmar's Enemy Within Francis Wade,2017-08-15 For decades Myanmar has been portrayed as a case of good citizen versus bad regime men in jackboots maintaining a suffocating rule over a majority Buddhist population beholden to the ideals of non violence and tolerance But in recent years this narrative has been upended In June 2012 violence between Buddhists and Muslims erupted in western Myanmar pointing to a growing divide between religious communities that before had received little attention from the outside world Attacks on Muslims soon spread across the country leaving hundreds dead entire neighbourhoods turned to rubble and tens of thousands of Muslims confined to internment camps This violence breaking out amid the passage to democracy was spurred on by monks pro democracy activists and even politicians In this gripping and deeply reported account Francis Wade explores how the manipulation of identities by an anxious ruling elite has laid the foundations for mass violence and how in Myanmar s case some of the most respected and articulate voices for democracy have turned on the Muslim population at a time when the majority of citizens are beginning to experience freedoms unseen for half a century
