

Development of a New Curriculum for Business

The curriculum for the new business program was developed by a committee of faculty members and administrators. The committee was charged with the task of developing a curriculum that would be relevant to the needs of the business community and that would provide students with a solid foundation in business fundamentals. The committee's work was guided by the following principles:

1. The curriculum should be based on the needs of the business community.
2. The curriculum should provide students with a solid foundation in business fundamentals.
3. The curriculum should be flexible enough to allow for changes in the business environment.
4. The curriculum should be challenging enough to prepare students for the rigors of the business world.
5. The curriculum should be designed to provide students with the skills and knowledge necessary to succeed in the business world.

The committee's work was completed in a timely manner, and the new curriculum was implemented in the fall of 1994. The curriculum has been well-received by both students and faculty members, and it has helped to ensure that the business program remains relevant and competitive in the marketplace.

skills while immersing them in the richness of the Hispanic world and its people. *Identidades* is a two semester intermediate Spanish program that brings the goals of the National Standards to virtually every page of the text and its ancillary components. The program presents and treats the cultures of the Hispanic world in ways that are both appealing and appropriate for college students and simultaneously maintains reasonable expectations for their understanding and productive use of grammatical concepts and structures. Communicative and rich in cultural content, *Identidades* is engaging, supports the language learning process and prepares and encourages students to continue their exploration of the Spanish language and Hispanic cultures beyond the second year. Teaching Learning Experience: Communicative and Content Based Approach. The goal of the program is to ensure that intermediate level Spanish learners build their language skills in rich communicative and cultural contexts. Communicative activities found throughout the program draw learners to the material presented and help them apply the content to their own experiences. Connect with Culture: By engaging with the cultural, artistic and social manifestations that infuse the program, learners will deepen their understanding that the Spanish speaking world is made up of many races, ethnic groups and cultures. Explore Grammar: The philosophy that underlies the presentation of grammar in *Identidades* is that adult language learners benefit from straightforward explanations and examples as well as from opportunities to use structures in both controlled and open ended activities that embed the targeted structures in meaningful communicative contexts. Build Vocabulary: Learners are introduced to vocabulary in the context of thought provoking reading selections. Develop Skills: A strategy and process oriented approach to reading and writing guides learners to apply their cognitive skills to communication in a second language. Reading strategies and tips which draw the learners' attention to key ideas or unfamiliar words or phrases in the passages of each chapter help readers develop their reading comprehension skills in Spanish, employing techniques and skills that they use automatically when reading in their native languages. Writing strategies and tasks provide guidance for students to produce descriptions, narrations and explanations in writing. Research oriented writing activities prepare the learner for courses beyond the second year. Personalize Learning: MySpanishLab's proven results are available for Intermediate Spanish courses.
