Corporate Governance, Capital Markets, and Capital Budgeting Baliira Kalyebara, Sardar M. N. Islam, 2013-07-31 The primary contribution of this book is to integrate the important disciplines which simultaneously impact the investment appraisal process The book presents a study that develops a new approach to investment appraisal which uses a multiple objective linear programming MOLP model to integrate the selected disciplines which include capital markets corporate governance and capital budgeting The research covers two case studies one in the e commerce sector and another in the airline industry in which the above disciplines are integrated Readers from the areas of corporate governance regulation and accounting would find the survey of different approaches and the new integrated optimization approach particularly useful

What is Market Manipulation? Andri Fannar Bergþórsson, 2018-08-13 The Market Abuse Regulation MAR entered into force in 2016 within the European Union which introduced a fully harmonized ban on market manipulation Even though the regulation is quite detailed the terms used to define market manipulation are relatively vague and open ended In What Is market manipulation Dr Andri Fannar Bergþórsson offers unique insight to and an interpretation of the concept of market manipulation which includes an analysis of case law from the Nordic countries The aim of the book is to clarify the concept as described in MAR and to provide readers some guidelines to distinguish between lawful behaviour and market manipulation the unlawful behaviour Bergþórsson convincingly argues that misinformation is an essential element of all forms of market manipulation

The Chinese Capital Market Annette Kleinbrod, 2008-03-12 The significance of China's development reaches far beyond the country's domestic concerns This is due to a variety of factors among them the country's rapid growth and development and its increasingly open borders allowing it to become a member of the regional and international

community of states over the last twenty five years China is not a major force yet but its voice is gaining influence Simultaneously its development on domestic regional and international levels is a huge uncertainty which inheres both potential and risk and is likely best described by the title of Johnny Erling s book China der grosse Sprung ins Ungewisse China the Great Leap into the Unknown Thereby the attempts to understand the relevant processes and related prospects often appear to be an endless puzzle which allows for further insight with every piece that can be added while a certain dimension of mystery remains as China develops further Today China s development is challenged considerably by a number of factors in the fields of the society policy economy and environment Finding a viable solution to these challenges and sustaining development is a concern of great priority to the Chinese government A decisive question with this in mind is how the financial system could be enhanced to a level at which it would be an effective catalyst for development

Debt Capital Markets Vincenzo Bavoso,2024-11-11 Debt capital markets have been at the heart of regulatory and policy debates since the global financial crisis of 2008 In this work Vincenzo Bavoso explores the role financial markets and products have in fuelling episodes of crises and financial instability Focussing on the law and regulation but also drawing on current economics and finance scholarship Debt Capital Markets examines both the pre 2008 regulatory environment and the framework that has emerged from post crisis regulatory corrections since Charting the evolution of debt capital markets and the transformation and liberalisation of the financial markets throughout the 1980s and 1990s the book outlines how debt capital markets from bonds to more sophisticated forms of securitised credit have become engines of private debt creation excessive levels of leverage and inevitably financial instability It covers all the main channels of debt intermediation in capital markets bonds commercial paper covered bonds securitisation collateralised debt obligations collateralised loan obligations and explains relevant synergies with adjacent markets and products such as credit derivatives repurchase agreements or FinTech lending Bavoso argues that the regulatory response after the 2008 global financial crisis has been insufficient so that debt capital markets remain the main locus of financial instability today His book provides a complex analysis of financial markets that accounts for theoretical practical and regulatory aspects It provides a multifaceted and contextual appraisal of the role of debt capital markets together with the legal and regulatory challenges posed by their development
