Milstead, 2025-09-04 Helps paraprofessionals and new school librarians begin their first school year with confidence New librarians and paraprofessionals often come to school library positions with little or no experience in library work and there s a gap in instructional information available for those who want to quickly increase their skill level This book helps professionals and paraprofessionals learn what they need to know to get started as well as pointing them to additional resources in areas where they might want more advanced information This practical guide teaches librarians and paraprofessionals to develop systems and create plans for programs and partnerships with teachers and other professionals to set them up for success during their first year in the library A timeline helps map out the rhythm of a school year The Quick Start Library Guide introduces paraprofessionals to library science topics such as cataloging collection development and weeding It covers topics specific to the school library such as reading levels book fairs and author visits Each section includes suggested resources for more in depth learning Librarians and paraprofessionals will be able to use this valuable straightforward guide to hit the ground running in their new role **A Manual of Marine Engineering** Albert Edward Seaton, 1928 *A Manual of Marine Engineering: Comprising the Designing, Construction, and Working of Marine Machinery. 5. Ed* Albert Edward Seaton, 1886 Our Biometric Future Kelly A. Gates, 2011-01-23 Since the 1960s a significant effort has been underway to program computers to see the human face to develop automated systems for identifying faces and distinguishing them from one another commonly known as Facial Recognition Technology While computer scientists are developing FRT in order to design more intelligent and interactive machines businesses and states agencies view the technology as uniquely suited for smart surveillance systems that automate the labor of monitoring in order to increase their efficacy and spread their reach Tracking this technological pursuit Our Biometric Future identifies FRT as a prime example of the failed technocratic approach to governance where new technologies are pursued as shortsighted solutions to complex social problems Culling news stories press releases policy statements PR kits and other materials Kelly Gates provides evidence that instead of providing more security for more people the pursuit of FRT is being

driven by the priorities of corporations law enforcement and state security agencies all convinced of the technology s necessity and unhindered by its complicated and potentially destructive social consequences By focusing on the politics of developing and deploying these technologies Our Biometric Future argues not for the inevitability of a particular technological future but for its profound contingency and contestability
