Fair Resource Allocation and Rationing at the Bedside Marion Danis, Samia A. Hurst, Len Fleck, Reidun Forde, Anne Slowther, 2014-10-02 Priority setting and rationing contribute significantly to affordable and fair healthcare and clinicians play an indispensable role in these processes This book offers practical strategies for clinicians to allocate resources fairly to teach about it to students and to discuss rationing more explicitly in the public arena and the doctor's office

Prioritization in Medicine Eckhard Nagel, Michael Lauerer, 2015-10-30 The gap between a rising demand for health care services on the one side and scarce resources on the other is leading to a growing pressure on decision making processes Hence prioritization in medicine has become an increasingly important issue for assuring stability of health systems and improving the capability of health care The present volume addresses normative dimensions of methodological and theoretical approaches the legal basis behind priority setting as well as international experiences concerning the normative framework and the process of priority setting It also examines specific criteria for prioritization and discusses economic evaluations Contributing authors from a broad range of scientific disciplines discuss prioritization within an international dialogue

Financing Micro Health Insurance: Theory, Methods And Evidence David M Dror, 2018-12-27 Healthcare for all at affordable prices is still a major but universally elusive goal Everyone spends money on healthcare and it is the most impoverishing consumption item Thus most governments and the United Nations promote Universal Health Coverage each country's unique blend of tools for healthcare financing including taxes subsidies and market controls Most people in low and middle income countries LMICs have no health insurance of any kind And most LMIC governments lack the political will information or resources to require their citizens to buy health insurance themselves or to subsidize insurance for all who cannot afford the price This book deals with financing voluntary and contributory health insurance for resource poor and rural groups in LMICs This book addresses three issues The first is how to catalyse demand for health insurance and develop insurance literacy among the largely illiterate and innumerate target population using training programs to build an enabling consensus allowing locals to create and administer such schemes The second involves the process of developing simplified methods for risk assessment which can help to underwrite risks price the micro health insurance schemes and ensure proper implementation The third issue is formulating a compelling business case which would make this health insurance affordable financially sustainable and operationally scalable This book develops insurance education and financial literacy for students of economics business administration insurance development studies and social work to prepare them for practical work as

implementers policymakers or evaluators A supplementary section for teachers and students includes comprehension questions

Medical Law and Ethics Jonathan Herring, 2025

Rationing and Resource Allocation in Healthcare Ezekiel Emanuel, Harald Schmidt, Andrew Steinmetz, 2018-05-10 Budgets of governments and private insurances are limited Not all drugs and services that appear beneficial to patients or physicians can be covered Is there a core set of benefits that everyone should be entitled to If so how should this set be determined Are fair decisions just impossible if we know from the outset that not all needs can be met While early work in bioethics has focused on clinical issues and a narrow set of principles in recent years there has been a marked shift towards addressing broader population level issues requiring consideration of more demanding theories in philosophy political science and economics At the heart of bioethics new orientation is the goal of clarity on a complex set of questions in rationing and resource allocation Rationing and Resource Allocation in Healthcare Essential Readings provides key excerpts from seminal and pertinent texts and case studies about these topics contextualized by original introductions The volume is divided into three broad sections Conceptual Distinctions and Ethical Theory Rationing and Resource Allocation Containing the most important and classic articles surrounding the theoretical and practical issues related to rationing and how to allocate scarce medical resources this collection aims to assist and inform those who wish to be a part of bioethics 21st century shift including practitioners and policy makers and students and scholars in the health sciences philosophy law and medical ethics

Obesity in Childhood and Adolescence H. Dele Davies MD, Hiram E. Fitzgerald, Kami J. Silk, 2018-11-09 This updated edition of the groundbreaking first edition identifies changes in U S children and adolescents obesity levels within the past decade examining factors contributing to obesity in this younger generation as well as possible solutions This comprehensive review of obesity in childhood and adolescence describes the many factors that contribute to obesity how to prevent it and how to manage it in those who already experience its effects Written by specialists in biological psychological social and behavioral fields these volumes take an interdisciplinary approach to the subject offering readers a broad understanding of the systemic complexity of obesity from a public health perspective The public must be aware of the deep and extensive roots of the problem in order to make informed decisions about policies related to school and nutritional practices health care costs and more Factors contributing to obesity in children and adolescents range from obvious ones such as quantity of food consumed and amount of physical exercise undertaken to how friendly the neighborhood environment is for outdoor activities and the affordability of nutritional foods such as fruits and vegetables With the information in these volumes readers will feel empowered to help their clients families and communities

Essential Interoperability Standards Simon Brinsmead, 2021-08-12 Proposes a new expert led international instrument to address access to essential technical standards

What is Enough? Carina Fourie, Annette Rid, 2017 Sufficiency approaches maintain that justice should aim for each person to have enough But what is sufficiency What does it imply for health or health care justice In this volume philosophers bioethicists health policy makers and health

economists assess sufficiency and its application to health and health care in fifteen original contributions *Undocumented and Unaccompanied* Cecilia Menjívar, Krista Perreira, 2021-11-29 This book focuses on the migration of undocumented minors arriving recently to the United States and the European Union flows that are often labeled undocumented illegal or irregular and due to their sudden increase they have been described in the media policy circles and scholarly work as a surge or a crisis Leading scholars examine the intricacies of the contexts that these minors encounter in the localities where they arrive including the legal and ethical frameworks for protecting unaccompanied minors governmental decisions about the best interests of the children these minors expressions of their own best interests or agency as they navigate immigration and social service systems conditions in detention centers and the health and social service needs in receiving communities Though definitions and techniques for counting unaccompanied migrant minors differ between the U S and the EU this book underscores the immigrant minors common vulnerabilities and strategies they adopt to protect themselves and improve their circumstances At the same time contributors to the volume highlight common challenges that both European and U S governments face as they develop policy strategies and legal mechanisms to attempt to balance the best interests of these children with national interests of the countries in which they settle The chapters in this book were originally published as a special issue of the Journal of Ethnic and Migration Studies
