South Africa's Dreams Robert J. Gordon, 2021-02-05 In the early sixties South Africa's colonial policies in Namibia served as a testing ground for many key features of its repressive Grand Apartheid infrastructure including strategies for countering anti apartheid resistance Exposing the role that anthropologists played this book analyses how the knowledge used to justify and implement apartheid was created Understanding these practices and the ways in which South Africa's experiences in Namibia influenced later policy at home is also critically evaluated as is the matter of adjudicating the many South African anthropologists who supported the regime

The Worst Is Yet to Come Peter Fleming, 2019-01-15 Capitalism is about to commit suicide and is threatening to take us down with it But will it give way to a grand social utopia or the beginning of a new dark age albeit WiFi enabled The Worst is Yet to Come explores the disturbing possibility that the current crisis of neoliberal capitalism isn't going to spawn an emancipatory renaissance but a world that is much much worse Wealthy CEOs see it They've been purchasing isolated bunker retreats in New Zealand for when the shit goes down Our politicians know it too and are frantically transforming the liberal state into a militarized machine Scientists are either uselessly decrying the looming eco catastrophe or jumping on the opportunity to conduct ever reckless experiments with the human genome The animal kingdom is retreating from the scene in terrible silence preferring the swift demise of the abattoir's bolt gun than witnessing what is about to happen Yet some of us are still ignoring the warning signs choosing instead to remain cheerfully optimistic believing that society has probably hit rock bottom and the only way is up This book argues the opposite What if we haven't hit rock bottom and are on the precipice of something much worse And what if we're too late But this grim prospect isn't submitted in the name of millennial fatalism or hopeless resignation On the contrary if our grandchildren are to survive the implosion of capitalism for the chances we will are fairly slim then a realistic picture of the nightmare to come is crucial Only an unwavering attitude of revolutionary pessimism will help us to prepare accordingly For the apocalypse will almost certainly be disappointing

Drums In The Distance Joe Mulhall, 2021-07-08 Mulhall watches the extreme right revival from the inside as an anti fascist infiltrator criss crossing the global networks of modern fascism but he brings a deep analytical focus By the end of it we understand one thing the threat of a second fascist era is real Paul Mason author of

Postcapitalism An urgent missive from the global frontlines of the fight against fascism Nima Elbagir CNN Senior International Correspondent A terrifying and timely look at the spread of far right movements across the globe Joe Mulhall knows what it s like to stare fascism in the face For a decade often undercover at significant personal risk he has investigated hate groups He infiltrated a US white supremacist militia set up a fake Ku Klux Klan branch has been on countless street marches with violent far right groups across Europe and got inside some of the most important alt right meetings ever held Brazil India and the US are still in thrall to authoritarian populism and far right views have become steadily normalised in mainstream politics Mulhall s dramatic experiences on the front line of anti fascist activism coupled with his academic research clearly explain the roots of both elected and non elected far right movements across the globe Above all he concludes the far right should not be dehumanised they are normal people but with dangerous beliefs that can be defeated Joe has had a unique view of the far right over the past decade as it transformed from a marginal subculture into one of the defining political currents of our time He understands how these groups think and operate and is perfectly placed to guide readers through this disturbing but vital story Daniel Trilling journalist and author of *Lights In The Distance Exile and Refuge at the Borders of Europe* Few if any are better placed to write a book of this breadth and scale than Joe Mulhall Mark Townsend Home Affairs editor of the Observer
