**Ford Parts Interchange Manual** Paul A. Herd, 1995 Do it yourself and professional mechanics will discover the right parts and components needed to interchange across different models and years      **Ford 1938 - 1954 Part Interchange Guide** Floyd D. Harper, 2016-05-10 This 1938 1954 parts interchange manual is a must if working on your major U S car or restoring it A true guide unlike others that only list places to buy parts and do not identify the interchangeability of parts A must for every restoration and or maintenance project saving money and research time This manual has been designed to help you in the identification and purchase of original equipment parts It should save you many hours of time locating the parts you need With this manual you will know exactly what parts from which vehicles are identical There may be no need to pay a high price for a supposedly rare part when it may be identical to many other parts This manual covers all major makes of cars for the years of 1938 thru 1954 including Buick Cadillac Chevrolet Chrysler Crosley Desoto Dodge Ford Frazer Henry J Hudson Kaiser Lafayette LaSalle Lincoln Mercury Nash Oldsmobile Packard Plymouth Pontiac Studebaker Terraplane and Willys Sections include engines transmissions cooling systems fuel pumps ignition system clutch front and rear axles bearings brakes rivets generator and starter and universal joints Body parts and glass are not included      Ford Big-Block Parts Interchange George Reid, 2017-12-15 Over the course of performance car history and specifically muscle car history big block engines are particularly beloved and for good reason Not only are they the essence of what a muscle car is but before modern technology and stroker engines they were also the best way to make a lot of horsepower All of the Detroit manufacturers had their versions of big block engines and Ford was no exception Actually Ford was somewhat unique in that it had two very different big block engine designs during the muscle car era The FE engine was a design pioneered in the late 1950s primarily as a more powerful replacement for the dated Y block design because cars were becoming bigger and heavier and therefore necessitated more power to move What started as torquey engines meant to move heavyweight sedans morphed into screaming high performance mills that won Le Mans and drag racing championships through the 1960s By the late 1960s the design was dated so Ford replaced the FE design with the 385 series also known as the Lima design which was more similar to the canted valve Cleveland design being pioneered at the same time It didn't share the 1960s pedigree of racing success but the new design was better in almost every way it exists via Ford motorsports offerings to this day In Ford Big Block Parts Interchange Ford expert and historian George Reid covers both engines completely Interchange and availability for all engine components are covered including cranks rods pistons camshafts engine blocks intake and exhaust manifolds carburetors distributors and more Expanding from the previous edition of High Performance Ford Parts Interchange that covered both small and big block engines in one volume this book cuts out the small block information and devotes every page to the FE Series and 385 big blocks from Ford which allows for more complete and extensive coverage p
