Red Teaming Bryce G. Hoffman, 2017-05-16 Red Teaming is a revolutionary new way to make critical and contrarian thinking part of the planning process of any organization allowing companies to stress test their strategies flush out hidden threats and missed opportunities and avoid being sandbagged by competitors Today most if not all established corporations live with the gnawing fear that there is another Uber out there just waiting to disrupt their industry Red Teaming is the cure for this anxiety The term was coined by the U S Army which has developed the most comprehensive and effective approach to Red Teaming in the world today in response to the debacles of its recent wars in Iraq and Afghanistan However the roots of Red Teaming run very deep to the Roman Catholic Church s Office of the Devil s Advocate to the Kriegsspiel of the Prussian General Staff and to the secretive AMAN organization Israel s Directorate of Military Intelligence In this book author Bryce Hoffman shows business how to use the same techniques to better plan for the uncertainties of today s rapidly changing economy Red Teaming is both a set of analytical tools and a mindset It is designed to overcome the mental blind spots and cognitive biases that all of us fall victim to when we try to address complex problems The same heuristics that allow us to successfully navigate life and business also cause us to miss or ignore important information It is a simple and provable fact that we do not know what we do not know The good news is that through Red Teaming we can find out In this book Hoffman shows how the most innovative and disruptive companies such as Google and Toyota already employ some of these techniques organically He also shows how many high profile business failures including those that sparked the Great Recession could easily have been averted by using these approaches Most importantly he teaches leaders how to make Red Teaming part of their own planning process laying the foundation for a movement that will change the way America does business

Unwanted Evidence of a Corporate Icon Ben Strobe, 2014-11-10 The book is mostly about one individual who worked for a large company and found himself on the wrong side of the company's management when corruption was discovered and exposed. This took place even though he had worked for and through the company's internal security forces contracted corporate investigator firms and the FBI. The book covers all levels and types of industrial crime but concentrates more on executive crime. This is because it affects society the most and it falls under the category of near perfect crimes. This is because few are ever arrested, convicted or do prison time even though they steal billions from all areas of society. The Wall Street crash was a prime example and to add insult to injury most got their bonuses on top of what they stole. This book continually tries to show its readers by example after example how easy it is for executives to steal billions and never even get questioned, forget about being arrested. Our criminal system is just not equipped or concerned about this type of crime. The ultimate concept being crime in the executive world really pays big.

The People's Car Bernhard Rieger, 2013-04-09 Bernhard Rieger reveals how a car commissioned by Hitler and designed by Ferdinand Porsche became a global commodity on a par with Coca Cola. The Beetle's success hinged on its uncanny ability to capture the imaginations of executives, engineers, advertisers, car collectors, suburbanites, hippies and everyday drivers across nations and cultures.

The Postie and The Priest Ron Burrows, 2013-08-09 A priest, a postie, a parish, a suburb, a city, a diocese, an unusual and deep friendship, a struggle to get a book published. *The Postie and the Priest* is part biography, part philosophy, part social commentary, part theological reflection. Here is a fly on the wall account of the daily life of an iconic Melbourne priest who has a deep passion for the battlers of his city, written by his postman who began by delivering his letters and ended up recording his life story. The stories from Fr Bob Maguire's life recall family events, life in the seminary, time as an army chaplain, work in various parishes, media connections and above all his passion for the organisations he founded: Open Family and the Fr Bob Maguire Foundation, that give voice to his concern for the underprivileged and the homeless of Melbourne. The postie admires the priest and tells his story, but this is as much the postie's story, giving us a unique insight into the history, characters and streets of South Melbourne that have shaped the lives of both men.
