Office 2007: The Missing Manual Chris Grover, Matthew MacDonald, E. A. Vander Veer, 2007-04-27 Quickly learn the most useful features of Microsoft Office 2007 with our easy to read four in one guide This fast paced book gives you the basics of Word Excel PowerPoint and Access so you can start using the new versions of these major Office applications right away Unlike every previous version Office 2007 offers a completely redesigned user interface for each program Microsoft has replaced the familiar menus with a new tabbed toolbar or ribbon and added other features such as live preview that lets you see exactly what each option will look like in the document before you choose it This is good news for longtime users who never knew about some amazing Office features because they were hidden among cluttered and outdated menus Adapting to the new format is going to be a shock especially if you re a longtime user That s where Office 2007 The Missing Manual comes in Rather than present a lot of arcane detail this quick friendly primer teaches you how to work with the most used Office features with four separate sections covering the four programs The book offers a walkthrough of Microsoft s redesigned Office user interface before taking you through the basics of creating text documents spreadsheets presentations and databases with Clear explanations Step by step instructions Lots of illustrations Plenty of friendly advice It s a great way to master all 4 programs without having to stock up on a shelf load of different books This book has everything you need to get you up to speed fast Office 2007 The Missing Manual is truly the book that should have been in the box

PowerPoint 2007 Emily A. Vander Veer, 2007 A new handbook not only covers the basics and new features of PowerPoint 2007 but also teaches users how to combine multimedia animation and interactivity into a presentation how to take full advantage of advanced functions and how to create reusable design templates and automate tasks with macros

PowerPoint 2007 for Starters: The Missing Manual E. A. Vander Veer, 2007-01-25 Fast paced and easy to read this new book teaches you the basics of PowerPoint 2007 so you can start using the program right away This concise guide shows readers how to work with PowerPoint s most useful features and its completely redesigned interface With clear explanations step by step instructions lots of illustrations and plenty of timesaving advice PowerPoint 2007 for Starters The Missing Manual will quickly teach you to Create save set up run and print a basic bullets and background slideshow Learn how to add pictures sound video animated effects and controls buttons and links to your slides Discover how to incorporate text spreadsheets and animations created in other programs The new PowerPoint is radically different from previous versions Over the past decade PowerPoint has grown in complexity but its once simple toolbar has been packed with so many features that not even the pros could find them all For PowerPoint 2007 Microsoft redesigned the user interface completely adding a tabbed toolbar that makes every feature easy to locate Unfortunately Microsoft s documentation is as scant as ever so even if you find the features you need you still may not know what to do with them But with this book you can breeze through the new user interface and its timesaving features in no time PowerPoint 2007 for Starters The Missing Manual is the perfect primer for anyone who needs
