Parliament. House of Commons, 1981 **2012 GCSE English results** Great Britain: Parliament: House of Commons: Education Committee, 2013-06-11 The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review This report sets out the background to these events and identifies lessons to be learned The problems with GCSE English can be traced back to the 2007/09 development phase of the qualification in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances Exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim Ofqual Further difficulties arose because of pressures from the school accountability system The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding The current status of Ofqual as an independent regulator accountable to Parliament is the right one However the Coalition

Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must have systems in place. The Committee is also concerned that there is a rush towards separate exam systems for England, Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do.

Aiming for an A in A-level Chemistry Sarah Longshaw, 2018-10-01. Exam Board: AQA, Edexcel, CCEA, OCR, WJEC, Eduqas. Level: A level. Subject: Chemistry. First teaching: September 2015. First exams: Summer 2017. Master the skills you need to set yourself apart and hit the highest grades this year. Round course companion develops the higher order thinking skills that top achieving students possess, providing step by step guidance, examples and tips for getting an A grade. Written by experienced author and teacher Sarah Longshaw. Aiming for an A in A level Chemistry helps you develop the A grade skills of analysis, evaluation, creation and application. Takes you step by step through specific skills you need to master in A level Chemistry, including scientific reading, quantitative and practical skills, so you can apply these skills and approach each exam question as an A candidate. Clearly shows how to move up the grades with sample responses annotated to highlight the key features of A grade answers. Helps you practise to achieve the levels expected of top performing students using in class or homework activities and further reading tasks that stretch towards university level study. Perfects exam technique through practical tips and examples of common pitfalls to avoid. Cultivates effective revision habits for success with tips and strategies for producing and using revision resources. Supports all exam boards outlining the Assessment Objectives for reaching the higher levels under the AQA, Edexcel, OCR, WJEC, Eduqas and CCEA specifications. *GCSE Intermediate Maths* Janet Crawshaw, Paul Langley, 1998-08. A textbook covering all the requirements for GCSE Intermediate Maths in three graded stages. It also serves as a revision programme consisting of a summary and mixed exam questions at the end of each stage. Included are reminders of key topics and work done at Key Stage 3 with fact sheets phased throughout. Stage 1: A range of icons guide the user throughout the material, indicating the topics covered, key objectives, definitions, formulas, dos and don'ts and sample questions. *Mathematics* Linda Bostock, Suzanne Chandler, 1984. Dealing with mechanics and the solving of mechanical problems with the help of pure mathematics, this A Level text introduces at an early stage an appreciation of the properties of vectors. Throughout the book problems are solved using vector methods where appropriate and many worked examples are provided to illustrate each main development of a topic. A set of straightforward problems follows each section and a selection of more challenging questions appears in the miscellaneous exercises at the end of most chapters with multiple choice questions on most topics. **Maths for Advanced Physics** John Rounce, 2002. Written by teachers and fully covering the 2002 A Level maths specifications for physics, this text is useful for both classroom work and homework exercises. Relevant for AS and A2 Levels of study and designed to be accessible and friendly in format, its aim is to provide clear and concise explanations of mathematical concepts and how these are then applied in physics. Worked examples are included throughout, encouraging students to grasp the subject matter with ease. Examination style questions and answer
