Discipline Problems Tadashi Dozono, 2024-05-07 Angel a Black tenth grader at a New York City public school self identifies as a nerd and likes to learn But she's troubled that her history classes leave out events like the genocide and dispossession of Indigenous people in the Americas presenting a sugar coated image of the United States that is at odds with her everyday experience The history I learned in school is simpler she says The world I live in is a lot more complex Angel like every student interviewed in Discipline Problems has been identified by teachers as a troublemaker a student whose behavior disrupts classroom norms and interferes with instruction But her critiques of the curriculum she's taught speak to her curiosity and insight crucial foundations for understanding history Like many students who have been marginalized by systemic racism in American schools she exposes the shortcomings of her classrooms academic environments by challenging both the content and the methods of her education All too often these challenges are framed as troublemaking and the students are disciplined for acting out instead of being rewarded for their intellectual engagement Tadashi Dozono a professor of education and former high school social studies teacher takes seriously the often overlooked critiques that

students of color who get labeled as troublemakers direct toward their high school history curriculum He reinterprets troublemaking usually cast as a behavioral deficit as an intellectual asset and form of reasoning that challenges the disciplining reason of classrooms where whiteness is valued over the histories and knowledge of people of color Dozono shows how what are traditionally framed as discipline problems can be seen through a different lens as responses to educational practices that marginalize non white students Discipline Problems reveals how students of color seek out alternate avenues for understanding their world and imagines a pedagogy that champions the curiosity intellect and knowledge of marginalized learners *The First Smithsonian Collection* Helena E. Wright, 2015-04-28 Outstanding Academic Title Choice 2015 Winner Ewell Newman Award of the American Historical Print Collectors Society 2016 In 1849 the Smithsonian purchased the Marsh Collection of European engravings Not only the first collection of any kind to be acquired by the new Institution it was also the first public print collection in the nation and it presented an important symbol of cultural authority The prints formed part of the library of Vermont Congressman George Perkins Marsh 1801 1882 a member of the Smithsonian s Board of Regents The uncertainty of the Smithsonian s mission in the early years complicated its motivation for purchasing the collection especially given Marsh s position as a Regent in financial difficulty After a serious fire in 1865 portions of the collection were deposited at the Library of Congress and the Corcoran Gallery of Art Efforts to reclaim it began in the 1880s as a new generation of Smithsonian staff expanded the National Museum but they achieved only mixed success Through the story of the Marsh Collection the book explores the cultural values attributed to prints in the 19th century including their prominent role in expositions and their influence on visual culture at a time when collecting styles were moving from an individual s private contemplation of artworks to wider public venues of exposition in museums and reception by multiple audiences The history of this first Smithsonian collection enlivens an important stage in the development of American cultural identity and in the formation of the Smithsonian as a national institution *Let's Review Regents: Global History and Geography 2020* Mark Willner, George Hero, Mary Martin, David Moore, Jerry Weiner, 2020-06-05 Written by experienced award winning teachers of Global History from throughout New York State Let s Review Regents Global History and Geography 2020 has been fully updated to review the Transition Exam format cover significant world events from 1750 to the present and include practice questions as well as two actual recently released Global History and Geography Transition Exams with answer keys and online access to an overview of the Global History and Geography II Exam All Regents test dates for 2020 have been canceled Currently the State Education Department of New York has released tentative test dates for the 2021 Regents The dates are set for January 26 29 2021 June 15 25 2021 and August 12 13th This book offers Extensive review of all frequently tested topics from 1750 to the present Extra practice questions with answers for all tested topics A detailed overview of the Transition Exam and an introduction to the course A thorough glossary of all key terms from 1750 to the present Two actual recently released Global History and Geography Transition Exams with

Understanding Non-State Actors Eran Zohar,2023-10-24 Understanding Non State Actors aims to reduce the scarcity of academic literature on armed non state actors NSAs that have always been a part of world politics and wars This monograph offers possibly for the first time a systematic historical review as well as a substantive theory of NSAs and their arming efforts The world has been astonished by the ability of the well armed Hamas to inflict heavy losses on the powerful Israel Thus from the Jewish rebellion against Rome to the war between the Ukrainian separatists and the Ukrainian government NSAs weapons acquisition has been vital for the build up of their force enabling both the employment of that force and its sustainability While weapons are not necessarily the most important factor in military build up NSAs need weapons to fight and revolts usually erupt after the organizers have acquired a certain number of weapons Conversely many revolts lose momentum and operations are not carried out or turn ineffective due to shortages of arms and ammunition A major theme of this monograph is that in spite of dramatic political and technological changes armed NSAs in different periods have employed similar methods to acquire weapons Self production looting and stealing external support and the arms trade were always the major ways for NSAs to acquire weapons though the importance of each method and the type of arms has changed remarkably over time Understanding Non State Actors discusses the factors political social cultural technological and organizational that have both facilitated and constrained the ability of NSAs to acquire arms Especially lecturers and students of Military Terrorism Conflict studies War and peace studies will benefit from this study **Jim Crow**

Campus Joy Ann Williamson-Lott,2018 This well researched volume explores how the Black freedom struggle and the anti Vietnam War movement dovetailed with faculty and student activism in the South to undermine the traditional role of higher

education and bring about social change. It uses the battles between students, faculty, presidents, trustees, elected officials, and funding agencies to explain how Black and White southern campuses transformed themselves into reputable academic centers. No matter the type of institution, these battles represented cracks in the edifice of the Old South and precipitated wide-ranging changes in southern higher education and society as well. This thought-provoking history offers scholars and others interested in institutional autonomy and the value of civil society a deep understanding of the central role that institutions of higher education can play in social and political change and the vital importance of independent institutions during times of national crisis. The riveting prose and well-researched narrative tell the stories of the past while also teaching lessons for today. Marybeth Gasman, University of Pennsylvania. A must read for every serious student of higher education.

academic freedom, free speech, civil rights, student protest, and southern history. Robert Cohen, New York University. Takes us back to a recent period in the American South in which the suppression of speech was commonplace in government and in the routines of everyday life. James D. Anderson, University of Illinois.

Alternatives to Privatizing Public Education and Curriculum Daniel Ness, Stephen J. Farenga, 2017-03-16. Through conversations in honor of Dale D. Johnson, this book takes a critical view of the monoculture in curriculum and policy that has developed in education with the increase of federal funding and privatization of services for public education and examines the shift from public interest and control to private and corporate shareholder hegemony. Most states' educational responsibilities, assessment of constituents, curriculum development, and instructional protocols are increasingly being outsourced to private enterprises in an effort to reduce state budgets. These enterprises have been given wide access to state resources such as public data from state-sanctioned testing results, field testing rights to public schools, and financial assistance. Chapter authors challenge this paradigm as well as the model that has set growing premiums on accountability and performance measures. Connecting common impact between the standards movement and the privatization of education, this book lays bare the repercussions of high-stakes accountability coupled with increasing privatization. Winner of The Society of Professors of Education Book Award 2018. **Le Roy Fitch** Myron J. Smith, Jr., 2013-12-06. This is the first published biography of Lieutenant Commander Le Roy Fitch, U.S. Navy. Fitch saw action on the Ohio, Tennessee, and Cumberland Rivers, fought against Morgan, Wheeler, and Forrest, as well as irregulars, commanded an ironclad monitor during the Battle of Nashville, and was renowned for his abilities in counterinsurgency and convoy tactics.

Keeping the Republic gives students the power to examine the narrative of what's going on in American politics, distinguish fact from fiction, and balance from bias and influence the message through informed citizenship. Keeping the Republic draws students into the study of American politics, showing them how to think critically about who gets what and how while exploring the twin themes of power and citizenship. Market Madness Blake C. Clayton, 2015-01-02 Stock market booms are cause for celebration But when oil prices soar because supplies are failing to keep up with demand the response is nearly always apocalyptic Predictions of the end of oil can create anxiety on Wall Street and in Washington stoking fears that production has hit a ceiling and prices will rise in perpetuity Yet these dire visions have always proven wrong *Market Madness* is the story of four waves of American anxiety over the last 100 years about a looming end to oil reserves Their sweeping pattern as large price increases lead to widespread shortage fears that eventually dissipate when oil production rises again and prices moderate has defined the wild price swings in the oil market down to the present day Blake Clayton a Wall Street stock analyst and adjunct fellow at the Council on Foreign Relations makes the case for the need for better information communication and transparency While these measures will not eliminate volatility and unpredictability completely they would mitigate unnecessary price spikes and improve both investor and government decision making *Market Madness* is the first study to employ Nobel Laureate economist Robert Shiller s new era economics beyond the markets to which he famously applied it the 1990s dot com equity market and the mid 2000s housing market in order to better understand the dynamics of speculative bubbles and irrationality in the commodities markets In so doing it breaks new ground in illuminating how mass beliefs about the future of a vital asset like oil take shape and what the future of energy may hold

Nixon in New York Victor Li, 2018-04-02 Richard Nixon's loss in the 1962 gubernatorial election in California was more than just a simple electoral defeat His once promising political career was in ruins as he dropped his second high profile race in as many years Nixon himself rubbed salt in his own self inflicted wounds by delivering a growling bitter concession speech that made him seem like a sore loser In the months following his defeat and self immolation he left California to move to New York so that he could work for a prestigious Wall Street law firm His new career only seemed to confirm what everyone already knew Richard Nixon was finished as a politician Except he wasn't Nixon's political resurrection was virtually unprecedented in American history role and he had his law firm to thank for paving his way to the White House His role as public partner at Nixon Mudge Rose Guthrie Alexander was the ideal platform for him as he looked to reinvent himself after his back to back losses in 1960 and 1962 Nixon's firm gave him access to deep pocketed clients many of whom became

donors when he decided to take the plunge in 1968 Furthermore working for so many international clients allowed him to travel the world and burnish his foreign policy credentials a vital quality that voters were looking for as the Cold War raged on and the Vietnam War showed no signs of slowing down Nixon s time at the firm also allowed him to build a formidable campaign staff consisting of top notch lawyers researchers and writers a staff that did just about everything for him when it came time to ramp up for the 1968 campaign *Affirmative Action Matters* Laura Dudley Jenkins,Michele S.
