Quality of VA Care United States. Congress. House. Committee on Veterans' Affairs. Subcommittee on Hospitals and Health Care, 1992 **Cardiovascular Outcomes** Dominick L. Flarey, Suzanne Smith Blancett, 1998 A collection of the most current and innovative presentations in path-based collaborative practices this second of two volumes focuses on the design, implementation, and analysis of outcomes in cardiovascular care. As in *Health Care Outcomes* the authors present two to three standard clinical pathways for each DRG and then show how those pathways can be manipulated to alter outcomes. *Cardiovascular Outcomes* covers a full range of medical and surgical cardiovascular outcomes. A comprehensive collection of critical pathways and outcomes maps being used by leading hospitals and health care agencies around the country this is an important reference for developing path-based care models or revising critical paths and outcomes maps. **Hearing on Oversight of VA Quality Management Activities** United States. Congress. Senate. Committee on Veterans' Affairs, 2010

VA Health Care : Medical Centers are Not Correcting Identified Quality Assurance Problems United States. General Accounting Office, 1992 **The SAGES Manual of Metabolic and Bariatric Surgery** Omar M. Ghanem, Farah Husain, Judy Y. Chen, Robert B. Lim, Matthew Kroh, 2024-12-26 Obesity is an epidemic more than 40% of the United States population suffers from obesity and as such it has a high burden of weight-related conditions and diseases. Metabolic and bariatric surgery has proven to be the most effective and durable treatment of severe obesity. Technological advances including applications of laparoscopy, robotics, and endoluminal techniques have rapidly advanced this field. Data and outcomes examining treatments have also improved and as providers we have a wide spectrum of therapeutic options to treat patients. As techniques and outcomes change rapidly access to a comprehensive yet focused resource regarding bariatric surgery is currently limited. The third edition of this manual is designed to present a comprehensive and state-of-the-art approach to the current and future status of metabolic and bariatric surgery. Sections will address the evolution in specific treatments available to patients, initial evaluation and selection of procedures for individual patients, the latest surgical and endoscopic techniques being employed to treat patients, including data on outcomes and future directions for therapy. In particular and unique amongst references a major focus of this text will be on both the bariatric and metabolic bases of therapies and outcomes. *The Private Regulation of American Health Care* Betty Leyerle, 2016-09-16 This work discusses a transformation of health care delivery that was launched by coalitions of business leaders during the early 1970s. It argues for a single payer system and considers how public regulation offers the possibility of democratic participation in setting health care policies. **Description and Analysis of the VA National Formulary** Institute of Medicine, Division of Health

Care Services, VA Pharmacy Formulary Analysis Committee, 2000-10-03 The VA National Formulary generated controversy which motivated congressional scrutiny and a directive to the VA to commission this report reviewing the experience with the National Formulary and formulary system This Institute of Medicine committee was pleased to assist the Congress with this review in part because the committee saw in the VHA example an opportunity to understand and anticipate problems that all publicly funded programs are likely to encounter in this new age of pharmaceuticals The Congress asked the committee to review the restrictiveness of the National Formulary its impact on the costs and quality of care in the VHA and how it compared to formularies and drug management practices in the private sector and in other public programs especially Medicaid Detailed in the pages that follow the committee's findings and conclusions on these questions are the committee believes highly instructive though not always in the ways that we anticipated

Department of Veterans Affairs, Veterans Health Administration, Hospital Report Card to the Appropriations Committee of the U. S. House of Representatives Barry Leonard, 2009-12 In an effort to provide a snapshot of the quality of care provided at VA health care facilities this report includes information about waiting times staffing level infection rates surgical volumes quality measures patient satisfaction service availability and complexity accreditation status and patient safety The data in this report have been drawn from multiple sources across the Veterans Health Admin VHA Overall VHA facilities provide high quality outpatient and inpatient medical care when compared to national external composite benchmarks developed by VHA Two areas where VHA is seeking to improve VA health care is for women and minority veterans Tables
