# Kofi Growing Pains

**Monica Serrano, Thomas G. Weiss**

## **Kofi Growing Pains:**

Kofi H L Daniel,2022-06-26 Kofi gladly accepts his fate when he learns that as the first son he must step into his father's shoes when the time comes However as he ages Kofi unearths his burning desire to care for the sick Torn between a long standing tradition and his passion Kofi strives to make the right decision A coming of age story set in Techiman a rural community in the Bono East Region of Ghana

**Kofi Annan** Rachel A. Koestler-Grack,2013 Examines the life and work of Kofi Annan including his childhood education and accomplishments as secretary general of the United Nations *Political Rationale and International Consequences of the War in Libya* Dag Henriksen,Ann Karin Larssen,2016-04-15 Political Rationale and International Consequences of the War in Libya focuses on the international intervention in Libya in 2011 and tries to answer two broad questions 1 What was the political rationale for the various actors to proceed as they did in the lead up and conduct of the military intervention in Libya 2 What are the consequences of the UN authorized military intervention in Libya R2P was the public raison d'être of the war and an important legitimizing factor of the intervention Still the humanitarian situation was a necessary but not in and by itself an adequate precondition for intervention A number of factors coalesced to enable the intervention While the humanitarian situation triggered the intervention in reality a variety of national interests governed the approach by the various international actors and more often than not these motives were not rooted in the particular circumstances in Libya The book offers a combination of unique perspectives While the perspectives of the US France and the UK on the Libyan Crisis War have been well documented the Arabic and Scandinavian political and military dynamics have been much less so While the perspectives of NATO the UN and R2P have been debated the view from the Arab League and African Union AU have been less in focus The volume redresses that imbalance and offers the most broad ranging analysis yet of a key moment in recent international relations

**FonTomFrom** Kofi Anyidoho,James Gibbs,2000 Includes articles annotated filmography interviews creative writing and book reviews

**Reclaiming the Human Sciences and Humanities Through African Perspectives** Helen Lauer,Kofi Anyidoho,2012 This compilation was inspired by an international symposium held on the Legon campus in September 2003 Hosted by the CODESRIA African Humanities Institute Programme the symposium had the theme Canonical Works and Continuing Innovation in African Arts Humanities

**The Responsibility to Protect and a Cosmopolitan Approach to Human Protection** Samuel James Wyatt,2018-09-21 This book conceptualizes Responsibility to Protect doctrine R2P as part of a global cosmopolitan agenda drawing on the work of Jürgen Habermas and argues that R2P is reflective of a shift towards a more cosmopolitan approach to human protection The author also proposes a framework of analysis that includes a strong legal dimension in order to advance reforms to the international legal political and military structures in order to better prevent humanitarian crises and protect civilians in times of conflict The volume explores the cosmopolitan moral and legal progress

that has occurred and could yet occur under R2P as the approach to human protection transitions in the Post Cold War era

The Responsibility to Prevent Serena K. Sharma, Jennifer M. Welsh, 2015-08-20 Among the constitutive elements of the responsibility to protect R2P prevention has been deemed by many as the most important Drawing on contributions from an international group of academics and practitioners this book seeks to improve our knowledge of how to operationalize the responsibility to prevent genocide crimes against humanity war crimes and ethnic cleansing The central argument is that the responsibility to prevent should be conceptualized as crimes prevention The first part of the volume develops a strategic framework which includes identifying the appropriate scope and substance of R2Ps preventive dimension and distinguishing between systemic and targeted approaches The second section examines some of the tools that can be used and have been used to prevent the escalation of dynamics towards the commission of atrocity crimes tools such as sanctions mediation international criminal justice and the use of military means as well as the operational challenges that tend to obstruct global efforts to prevent such crimes The third and final section draws lessons from actual cases of preventive action both historical and recent about the relative success of particular tools and approaches As the first edited collection of its kind devoted exclusively to the preventive dimension of R2P The Responsibility to Prevent intends to inform and shape the growing debate on how to approach atrocity crime prevention and how to build the capacities needed to implement the imperatives at the heart of R2P

Congress. Senate. Committee on Homeland Security and Governmental Affairs. Permanent Subcommittee on Investigations, 2009 **Africa and the World** Lewis H. Gann, Peter Duignan, 1999 First published in 1972 Africa and the World places the African past within the wider context of world events while providing a wealth of geographical and ethnographic information about the continent The book specifically focuses on the pre colonial and early colonial history of sub Saharan Africa Designed for those interested in the impact of Europe on the non Western world the volume provides an account of the major economic and social factors that have shaped African history Information from studies in anthropology archaeology history and art are included as well Africa and the World is an essential and accessible resource for those interested in world history or African studies **Critical Perspectives on Politics and the Environment** Rick

Adair, 2006-07-15 Essays discuss the relationship between politics and environmentalism including methods proposed and those used to solve environmental problems how regulation has changed over the years and how trade affects the environment **Background Readings**, 1976 **Background Readings** Industrial College of the Armed Forces

(U.S.), 1974 Rules for the World Michael Barnett, Martha Finnemore, 2012-04-15 Rules for the World provides an innovative perspective on the behavior of international organizations and their effects on global politics Arguing against the conventional wisdom that these bodies are little more than instruments of states Michael Barnett and Martha Finnemore

begin with the fundamental insight that international organizations are bureaucracies that have authority to make rules and so exercise power At the same time Barnett and Finnemore maintain such bureaucracies can become obsessed with their own rules producing unresponsive inefficient and self defeating outcomes Authority thus gives international organizations autonomy and allows them to evolve and expand in ways unintended by their creators Barnett and Finnemore reinterpret three areas of activity that have prompted extensive policy debate the use of expertise by the IMF to expand its intrusion into national economies the redefinition of the category refugees and decision to repatriate by the United Nations High Commissioner for Refugees and the UN Secretariat s failure to recommend an intervention during the first weeks of the Rwandan genocide By providing theoretical foundations for treating these organizations as autonomous actors in their own right *Rules for the World* contributes greatly to our understanding of global politics and global governance

**National Security Seminar** Industrial College of the Armed Forces (U.S.),1974

**The International Politics of Human Rights** Monica Serrano,Thomas G. Weiss,2014-01-03 The responsibility to protect R2P is at a crossroads the latest in a journey that is only ten years old This book present debates on the prevention of mass atrocities to R2P s normative prospects The book addresses key questions as a way to inform and drive on going conversations about R2P Moving beyond well rehearsed debates about the tensions and meanings around sovereignty in R2P practice the book focuses on advancing the credibility of the preventive dimensions of R2P whilst simultaneously examining the extent of R2P s current value added in state decision making especially for the 2011 actions in Libya and C te d Ivoire Questions addressed include Did the R2P framework of the 2005 World Summit Declaration intend to mould sovereignty and if so how Can R2P break or revert cycles of violence How can one determine the appropriate duration and timing of the preventive and protective phases of R2P Who what should be the targets of preventive action and how does this have an impact on R2P diplomacy Under which conditions are particular policy tools likely to be effective Which state and regional actors are best suited to using these tools What are the barriers to successful preventive action how can they be overcome What capacities need to be built at the national regional and international levels in order to operationalize R2P s preventive agenda Examining a wide range of countries this work will be essential reading for students and scholars of international human rights international organizations peacekeeping and conflict resolution

*The Assyrian Genocide* Hannibal Travis,2017-07-20 For a brief period the attention of the international community has focused once again on the plight of religious minorities in Iraq Syria and Turkey In particular the abductions and massacres of Yezidis and Assyrians in the Sinjar Mosul Nineveh Plains Baghdad and Hasakah regions in 2007 2015 raised questions about the prevention of genocide This book while principally analyzing the Assyrian genocide of 1914 1925 and its implications for the culture and politics of the region also raises broader questions concerning the future of religious diversity in the Middle East It gathers and analyzes the findings of a broad spectrum of historical and scholarly works on Christian identities in the Middle East genocide studies international law and the politics of the late Ottoman Empire as well

as the politics of the Ottomans British and Russian rivals for power in western Asia and the eastern Mediterranean basin A key question the book raises is whether the fate of the Assyrians maps onto any of the concepts used within international law and diplomatic history to study genocide and group violence In this light the Assyrian genocide stands out as being several times larger in both absolute terms and relative to the size of the affected group than the Srebrenica genocide which is recognized by Turkey as well as by international tribunals and organizations Including its Armenian and Greek victims the Ottoman Christian Genocide rivals the Rwandan Bengali and Biafran genocides The book also aims to explore the impact of the genocide period of 1914 1925 on the development or partial unraveling of Assyrian group cohesion including aspirations to autonomy in the Assyrian areas of northern Iraq northwestern Iran and southeastern Turkey Scholars from around the world have collaborated to approach these research questions by reference to diplomatic and political archives international legal materials memoirs and literary works
