[The Irishness of Irish Music](#) John O'Flynn, 2017-07-05 This book brings together important material from a range of sources and highlights how government organizations musicians academics and commercial companies are concerned with and seek to use a particular notion of Irish musical identity Rooting the study in the context of the recent history of popular traditional and classical music in Ireland as well as providing an overview of aspects of the national field of music production and consumption O Flynn goes on to argue that the relationship between Irish identity and Irish music emerges as a contested site of meaning His analysis exposes the negotiation and articulation of civic ethnic and economic ideas within a shifting hegemony of national musical culture and finds inconsistencies between and among symbolic constructions of Irish music and observed patterns in the domestic field More specifically O Flynn illustrates how settings genres social groups and values can influence individual identifications or negations of Irishness in music While the apprehension of intra musical elements leads to perceptions of music that sounds Irish style and authenticity emerge as critical articulatory principles in the identification of music that feels Irish The celebratory and homogenizing discourse associated with the international success of some Irish musical forms is not reflected in the opinions of the people interviewed by O Flynn at the same time an insider outsider dialectic of national identity is found in various forms of discourse about Irish music Performers and composers discussed include Bill Whelan Riverdance Sinéad O Connor The Corrs

Altan U2 Martin Hayes Dolores Keane and Gerald Barry **Essays in the History of Irish Education** Brendan Walsh, 2016-09-29 This book provides a complete overview of the development of education in Ireland including the complex issue of how religion can coexist with education and how a national identity can be aided through Irish language teaching It also offers a comprehensive exploration of the development issues challenges and future of education in Ireland within the context of historical studies *Communities of Musical Practice* Ailbhe Kenny, 2016-04-28 Every day people come together to make music Whether amateur or professional young or old jazz enthusiasts or rock stars what is common to all of these musical groups is the potential to create communities of musical practice CoMP Such communities are created through practices ways of engaging rules membership roles identities and learning that is both shared through collective musical endeavour and situated within certain sociocultural contexts Ailbhe Kenny investigates CoMP as a rich model for community engagement musical participation and transformation in music education This book is the first to produce a valid and reliable in depth study of music communities using a community of practice CoP framework in this case focusing on the social process of musical learning Employing case study research within Ireland three illustrations from particular sociocultural genre specific economic and geographical contexts are examined an adult amateur jazz ensemble a youth choir and an online Irish traditional music web platform Each case is analysed as a distinct community and phenomenon offering sharpened understandings of each sub culture with specific findings presented for each community **Irish Music in the Twentieth Century** Gareth Cox, Axel Klein, 2003 Publisher and editors change over the course of the series Irish University Review, 1999 A journal of Irish studies **Collected Philosophical Essays** John O'Loughlin, 2022-03-16 As John O Loughlin s mature works became increasingly aphoristic and hence to his mind increasingly metaphysical with what he would regard as truth effectively eclipsing the fumblingly discursive nature of essays and indeed knowledge generally he totally abandoned both the essays as here and the dialogues published in a separate collective volume together with such early aphoristic material that at least had the merit so far as he was concerned of anchoring him in a more genuine approach to philosophy than could ever be found in works of a philosophical nature diluted by prose and hence by a discursive want of both logic and system unworthy in his estimation of true philosophy Nonetheless the reader will be aware that philosophical essays are still distinct from literary prose all the more so when as in this volume and various others the material has been centred the better to intimate of a sort of metaphysical aloofness from the pedament slaving world which customarily fights shy in the angularity of its untransvaluated nature of anything resembling no matter how metaphorically the curvilinear subjectivity of a dome particularly when intimating in true religious vein of transcendental possibility a possibility very much a part of the best of the essays included in this one volume presentation spanning the years 1977 84 of John O Loughlin s literary output A Centretruths Editorial Irish Publishing Record, 1987 **Celtic Studies in Europe and Other Essays** Seán Ó Lúing, 2000 John Tyndall, Essays on a Natural Philosopher William Hodson Brock, Norman D.
