Legacy Torgrim Titlestad, 2018-05-26 More than marauders and bloodthirsty conquerors the Vikings were builders of a civilization which influence may still be seen in the modern world The Viking Age is arguably one of the most fascinating epochs in history and in this book a new narrative is presented based on Viking history as it is told in the Norse Sagas Viking Legacy represents a new generation of books exploring the Viking Age By integrating the Saga literature with other sources a more complete picture emerges of this increasingly popular era and a civilization that would change the course of history Torgrim Titlestad professor dr philos is one of Norway's foremost experts and most prolific authors on the Viking Age and Saga history He is the recipient of the Saga Award 2016 and was appointed Knight of the Order of the Falcon 2017 by Iceland's President Gu nni Th J hannesson for his work with the Norse sagas especially Tormod Torf us Magnum Opus Historia Rerum Norvegicarum and the Icelandic saga treasure Flateyjarbók **Gardeners' Chronicle** ,1866 *Gardeners' Chronicle and Agricultural Gazette* ,1843

Cha, 2022-01-31 Starting in 1884 with the arrival of the first resident

Protestant missionary in Korea and ending with the expulsion of missionaries from the peninsula by the Japanese colonial government in 1942 Balancing Communities examines how the competing demands of communal identities and memberships

shaped the early history of Protestantism in Korea In so doing the author challenges the conventional history of Korean Protestantism in terms of its relationship to the South Korean nation state Conversion to Christianity granted Koreans membership in a faith based organization that at least in theory transcended national and political boundaries As a result Korean Christians possessed dual membership in a transnational religious community and an earthly political state Some strove to harmonize these two associations Others privileged one membership over the other Regardless the potential for conflict was always present Balancing competing demands was not simply a Korean issue Missionaries also struggled to reconcile their national allegiances political identities and religious partnerships with both Korean Christian leaders and government officials Improperly calibrated communal demands produced conflict and instability among missionaries Korean Christians and the state These demands led to struggles for control over social institutions such as hospitals and schools incited schisms and debates over church membership and challenged state power and social patterns When they were balanced differently these demands could lead to surprisingly stable and long lasting relations The price of this stability however was often the perpetuation of inequality for the language of community masked the hierarchy of power embedded in these associations Scholars of both Korea and World Christianity have identified South Korea as a prime example of the successful spread of Christianity outside Euro America in the nineteenth and twentieth centuries Paul S Cha interrogates the construction of Korean Protestantism and successfully argues that frameworks anchored to nationalism or the nation state fail to capture the complexities of this religion s history in Korea and the relationships that formed among Korean Christians missionaries and government officials especially during the colonial period The Missionary Magazine and Chronicle ,1846
