Handbook of Africa's International Relations Tim Murithi, 2013-09-05 Africa's international relations have often been defined and oriented by the dominant international and geopolitical agendas of the day In the aftermath of colonialism the Cold War became a dominant paradigm that defined the nature of the continent's relationship with the rest of the world The contemporary forces of globalization are now exerting an undue influence and impact upon Africa's international relations Increasingly the African continent is emerging as a vocal and in some respects an influential actor in international relations There is a paucity of analysis and research on this emerging trend This timely book proposes to fill this analytical gap by engaging with a wide range of issues with chapters written by experts on a variety of themes The emerging political prominence of the African continent on the world stage is predicated on an evolving internal process of continental integration In particular there are normative and policy efforts to revive the spirit of Pan Africanism the 21st century is witnessing the evolution of Pan Africanism notably through the constitution and establishment of the African Union AU Given the fact that there is a dearth of analysis on this phenomenon this volume will also interrogate the notion of Pan Africanism through various lenses notably peace and security development the environment and trade The volume will also engage with the emerging role of the AU as an international actor e.g. with regard to its role in the reform of the United Nations Security Council climate change the International Criminal Court ICC the treaty establishing Africa as a nuclear free zone Internally Displaced Persons the Millennium Development Goals MDGs international trade the environment public health issues security and development issues This book will assess how the AU's role as an international actor is complicated by the difficulty of promoting consensus among African states and then maintaining that consensus in the face of often divergent national interests This book will in part assess the role of the AU in articulating collective and joint policies and in making interventions in international decision and policy making circles The Handbook will also assess the role of African social movements and their relationship with global actors The role of African citizens in ameliorating their own conditions is often underplayed in the international relations discourse and this volume will seek to redress this oversight Throughout the book

the various chapters will also assess the role that these citizen linkages have contributed towards continental integration and in confronting the challenges of globalization Global Clinical Legal Education Jeff Giddings,2025-01-28 This book explores the distinctive nature of clinical legal education in a range of global contexts The emergence of law school based clinical legal education has been recognised as a major innovation in modern legal education At its best it integrates the academic rigour of university based learning with the practical ethical and social justice insights that come from structured work with clients This book examines what makes clinic different from other aspects of legal education and how it differs from experiential learning in other disciplines particularly in its emphasis on social justice It provides an analysis of various models that support student learning in community settings from 66 contributors across the globe Learning goals teaching methods focus areas forms of student involvement engagement with lawyers and the challenges faced are all identified as important in giving clinical legal education its local flavour Exploring the role of technology in clinic and the significant growth in technology based clinics the book reviews the ways in which clinics harness technology to serve diverse client communities and extend the global reach of clinical legal education particularly in light of the ongoing COVID 19 pandemic This book will be of particular interest to researchers in the fields of clinical legal education and the use of emerging technologies in legal education **Index to Legal Periodicals & Books** ,2002 **Ulrich's International Periodicals**
