Coviability of Social and Ecological Systems: Reconnecting Mankind to the Biosphere in an Era of Global Change Olivier Barrière, Mohamed Behnassi, Gilbert David, Vincent Douzal, Mireille Fargette, Thérèse Libourel, Maud Loireau, Laurence Pascal, Catherine Prost, Voyner Ravena-Cañete, Frédérique Seyler, Serge Morand, 2019-03-12 This book considers the principle of sustainable development which is currently facing a growing environmental crisis A new mode of thinking and positioning the ecological imperative is the major input of this volume The prism of co viability is not the economics of political agencies that carry the ideology of the dominant conventional economic schools but rather an opening of innovation perspectives through science This volume through its four parts more than 40 chapters and a hundred authors gives birth to a paradigm which crystallizes within a concept that will support in overcoming the ecological emergency deadlock In the Shadow of Young Girls in Flower Marcel Proust, 2015-10-13 Edited and annotated by leading Proust scholar William Carter In the Shadow of Young Girls in Flower is the second volume of one of the twentieth century's great literary triumphs It was this volume that won the Prix Goncourt in 1919 affirming Proust as a major literary figure and dramatically increasing his fame Here the narrator whose childhood was reflected in Swann's Way moves further through childhood and into adolescence as the author brilliantly examines themes of love and youth in settings in Paris and by the sea in Normandy The reader again encounters Swann now married to his former mistress and largely fallen from high society and meets for the first time several of Proust's most memorable characters the handsome dashing Robert de Saint Loup who will become the narrator's best friend the enigmatic Albertine leader of the little band of adolescent girls the profoundly artistic Elstir believed to be Proust's composite of Whistler Monet and other leading painters and making his unforgettable entrance near the end of the volume the intense indelible Baron de Charlus Permeated by the bloom of youth and its resonances in memories of love and friendship In the Shadow of Young Girls in Flower takes readers into the heart of Proust's comic and poetic genius As with Swann's Way Carter uses C K Scott Moncrieff's beloved translation as the basis for this annotated and fully revised edition Carter corrects long standing errors in Scott Moncrieff's otherwise superlative translation bringing it closer than ever to the spirit and style of Proust's original text and reaching English readers in a way that the Pl iade annotations cannot Insightful and accessible Carter's edition of Marcel Proust's masterwork will be the go to text for generations of readers seeking to understand Proust's remarkable bygone world *L'individu et l'Etat* Charles Brook Dupont-White, 1865 *Essai sur l'homme* Pope, 1745 **Development and the Sustainable City** Nadège Gunia, Jean-Pierre Mignot, Marc-André Mequignon, Isabelle Bouchardy, Yann Ferguson, 2025-01-07 This book examines the city and its rapid growth as well as the sustainability issues it poses in several ways First there is a critical approach to development as expressed by the concept of sustainable development The city as a complex system primarily refers to questions of sustainability performance which we believe to be capable of resolving problems and difficulties even when viewed from a local perspective and therefore from the

point of view of the areas in which it must act Lastly the issue of sustainability cannot be addressed without contemplating and concluding how acceptable it is to the populations concerned All challenges raised by the urban character of the city are therefore linked to the more general question of how to define the concept of sustainable development and the sustainable city as a key area of concern      **Essai sur l'homme** Alexander Pope,1800      **Essai Sur L'homme, Par Monsieur**

**Alexandre Pope. Traduction Francoise en Prose, Par Mr. S....** Alexander Pope,1745      **The Gendered 'I' in Ancient Literature** Lisa Cordes,Therese Fuhrer,2022-10-24 Considering the ubiquity of rhetorical training in antiquity the volume starts from the premise that every first person statement in ancient literature is in some way rhetorically modelled and aesthetically shaped Focusing on different types of Greek and Latin literature poetry and prose from the Archaic Age to Late Antiquity the contributions analyse the use and modelling of gender specific elements in different types of first person speech be it that the speaker is represented as the author of a work be it that they feature as characters in the work narrating their own story or that of others In doing so they do not only offer new insights into the rhetorical strategies and literary techniques used to construct a gendered I in ancient literature They also address the form and function of first person discourse in classical literature in general touching on fields of research that have increasingly come into focus in recent years such as authorship studies studies concerning the ancient notions of the literary persona as well as a historical narratology that discusses concepts such as the narrator or the literary character in ancient literary theory and practice
