Using Data to Improve Schools Elaine Allensworth, 2025-10-22 Make data work for your school and for every student Far too often educators are inundated with data that feels overwhelming irrelevant or unhelpful In *Using Data to Improve Schools* nationally recognized expert on school transformation and student achievement Elaine Allensworth offers a framework for understanding the critical properties of data and the tools educators need to focus on the metrics that matter most for student achievement Rooted in two decades of research on educational policy and practice and real world success stories from Chicago Public Schools this groundbreaking guide bridges the gap between theory and practice helping educators build a culture of data driven collaboration and success Topics covered include Common myths and assumptions that divert attention from the data that matter most Guidance on using systems for continuous improvement such as Early Warning Indicator EWI and Multi Tiered Systems of Support MTSS Tools to align teachers families and staff around a shared vision and strategies that build trust and momentum for sustainable growth Allensworth clearly outlines how schools can improve key performance areas like attendance test scores and graduation rates by identifying high impact metrics and fostering a collaborative culture of improvement By simplifying complex concepts and offering tools for effective collaboration this guide inspires educators to turn numbers into positive change Informing the Practice of Teaching Using Formative and Interim Assessment Robert W. Lissitz, 2013-03-01 This book focuses on interim and formative assessments as distinguished from the more usual interest in summative assessment I was particularly interested in seeing what the experts have to say about a full system of assessment This book has particular interest in what information a teacher a school or even a state could collect that monitors the progress of a student as he or she learns The authors were asked to think about assessing the effects of teaching and learning throughout the student s participation in the curriculum This book is the product of a conference by the Maryland Assessment Research Center for Education Success MARCES with funding from the Maryland State Department of Education Literacy Across the Community Laurie A Henry, Norman A Stahl, 2020-12-17 This volume explores and evaluates community based literacy programs examining how they bridge gaps in literacy development promote dialogue and connect families communities and schools Highlighting the diversity of existing literary initiatives across populations this book brings together innovative and emerging scholarship on the relationship between P20 schools and community based literacy programming This volume not only identifies trends in research and practice but it also addresses the challenges affecting these community based programs and presents the best practices that emerge from them Collaborating with leading scholars to provide national and international perspectives and offering a clear birds eye view of the state of community literacy praxis chapters cover programming in a multitude of settings and for a wide range of learners from early childhood to incarcerated youths and adults and including immigrants refugees and indigenous communities Topics include identity and empowerment language and literacy development across the lifespan rural and

urban environments and partnership programs The breadth of community literacy programming gathered in a single volume represents a unique array of models and topics and has relevance for researchers scholars graduate students pre service educators and community educators in literacy

Handbook of Formative Assessment in the Disciplines Heidi L. Andrade,Randy E. Bennett,Gregory J. Cizek,2019-05-14 The Handbook of Formative Assessment in the Disciplines meaningfully addresses current developments in the field offering a unique and timely focus on domain dependency Building from an updated definition of formative assessment the book covers the integration of measurement principles into practice the operationalization of formative assessment within specific domains beyond generic strategies evolving research directions including student involvement and self regulation and new approaches to the challenges of incorporating formative assessment training into pre service and in service educator training As supporters of large scale testing programs increasingly consider the potential of formative assessments to improve teaching and learning this handbook advances the subject through novel frameworks intersections of theory research and practice and attention to discernible disciplines Written for instructors graduate students researchers and policymakers each chapter provides expert perspectives on the procedures and evaluations that enable teachers to adapt teaching and learning in process toward student achievement
