## End of Covid 'in sight'

BY RED MENDOZA

**T**HE Department of Health (DoH) agreed with the observation of the World Health Organization (WHO) that the end of the Covid-19 pandemic is "in sight," but added that the country must be prepared to transition to the endemic stage.

WHO Director-General Dr. Tedros Adhanom Ghebreyesus noted that with the number of new cases and deaths continuing to fall, the Covid-19 pandemic is nearing its end.

"We have never been in a better position to end the pandemic. We are not there yet, but the end is in sight," Tedros said in his briefing on Wednesday. » CovidA2

### Mars rover sees hints of past life in rock samples

**WASHINGTON, D.C.** NASA's Perseverance rover has detected its highest concentration yet of organic molecules, in a potential signal of ancient microbes that scientists are eager to confirm when the rock samples are eventually brought to Earth.

While organic matter has been found

on the Red Planet before, the new discovery is seen as especially promising because it came from an area where sediment and rocks were deposited into a lake — conditions where life could have arisen.

It is very fair to say that there are going to be, there already are, the most

valuable rock samples that have ever been collected," David Shuster, a Perseverance science team scientist, told reporters during a briefing.

Organic molecules — compounds made primarily of carbon that usually include hydrogen and oxygen, but

### Filipino girls better at learning than boys — Unicef

**IN** the Philippines, girls were better than boys at learning math, reading, writing and science, data from a recent United Nations Children's Fund (Unicef) report showed.

Unicef Philippines Chief of Education Jay Posing told The Manila Times that girls outperforming boys was "consistent in all international tests" as well as in educational learning.

As the country returns to in-person learning, the Unicef recommended remedial programs for foundational skills, such as numeracy and literacy, accompanied by psychosocial support strategies, to make

up for the learning loss at the height of the Covid pandemic when schools worldwide were forced to close.

Posing also urged the strengthening of pre-service and in-service teacher training programs and increasing the budget for education.

The results from the Philippines went against the international trend where girls in 34 low- and middle-income countries lag behind boys in mathematics, with science and gender stereotypes identified as among the most issues.

It found that "boys have up to 1.3 times

### Unlearning for the future

ON THE CONTRARY  
**ANTONIO CONTRERAS**

**T**HERE is a just too much focus on the proposal to make ROTC mandatory in senior high school. Even the Commission on Higher Education estimates the thought of having some kind of military training and community service offered as an option for college students. Some people have even argued that military training be made mandatory for all adult Filipinos.

The idea is that it is only through military service that love for country and discipline can be inculcated in the youth and adults of the Philippines.

### Electric cars not zero emission; California's policy model a disaster

OBSERVER  
**YEN MAKASENTA**

**F**IRST, we need to ask: Is it really a disaster? The truth will out, as Challenger said. Eventually, people will figure out what you did and they'll engage your actions.

You've all had the experience of trying to keep a fire quiet. In most cases, that leads to creating more fire to cover up the old fire. As a result, you end up in a vicious cycle of trying and people eventually figure out that you're lying about your actions.
