Kokang A Novel Of Southeast Asia:

Kokang a Novel of Southeast Asia Allen Wittenborn, 2015-01-17 Matt Erickson's life turns upside down when he receives a State Department telegram notifying him that his younger brother is missing and possibly dead in Burma. Matt has been in Hong Kong for a year struggling to make a go of his brokerage business. Now this is the last thing he needs: to take off for the wilds of the lawless Burmese hinterland. But the cable forces him to drop everything and set out in search of Luke. Everything includes not only his work but his dilemma of being torn between a relationship with Vivian Lee, an alluring and seductive Hong Kong gem magnate who promises sex and big money, and his desire to marry Florence Chen, who herself is caught between the opposing forces of her love for Matt and her role as the leader of her clan's global business empire in Kokang. Helped by the fiery Burmese revolutionary Thiri Khalya, Matt is drawn deeper into the vortex of Burma's cut-throat politics. He's out of his element and faces an array of problems, not the least of which is that he's in Burma illegally, not a good idea given its brutal military junta. KOKANG opens up a world of warlords, mercenaries, and ethnic freedom fighters, Chinese mafia, and powerful and commanding women. This is a story from an Asian point of view, Asia from the inside out. But place complements the characters and brings to life the geographical expression of a region that is more than a territorial setting. Southeast Asia becomes a character in itself.

The Golden Triangle Ko-lin Chin, 2011-02-23 The Golden Triangle region that joins Burma, Thailand, and Laos is one of the global centers of opiate and methamphetamine production. Opportunistic Chinese businessmen and leaders of various armed groups are largely responsible for the manufacture of these drugs. The region is defined by the apparently conflicting parallel strands of criminality and efforts at state building, a tension embodied by a group of individuals who are simultaneously local political leaders, drug entrepreneurs, and members of heavily armed militias. Ko-lin Chin, a Chinese American criminologist who was born and raised in Burma, conducted five hundred face-to-face interviews with poppy growers, drug dealers, drug users, armed group leaders, law enforcement authorities, and other key informants in Burma, Thailand, and China. The Golden Triangle provides a lively portrait of a region in constant transition, a place where political development is intimately linked to the vagaries of the global market in illicit drugs. Chin explains the nature of opium, growing heroin, and methamphetamine production, drug sales, and drug use. He also shows how government officials who live in these areas view themselves not as drug kingpins but as people who are carrying the responsibility for local economic development on their shoulders.

Spaces of Exception Myint Myint Kyu, 2018-02-01 The Union of Myanmar, also known as Burma, is one of the most ethnically diverse countries in the world. One hundred and thirty-five distinct indigenous groups are officially recognized by the government, although this number is believed by many experts to be an underestimate, and the country's first nationwide census since 1941 is not scheduled to be completed until 2014. Throughout its existence as a sovereign state following independence from British colonization in 1948, the country has experienced a complex set of conflicts between the national military and various ethnic groups seeking greater autonomy.

from the Burman dominated central government The military capacity and influence of the ethnic nationalists has declined significantly over the past two decades and many armed ethnic groups have entered into ceasefire agreements with the central government In exchange for laying down their arms against the Burmese military and agreeing to open their areas to Burman led development projects various ethnic factions have been granted at least partial de facto administrative authority over the regions in which they predominate *Security and Sustainable Development in Myanmar* Helen James, 2006-09-27

Helen James considers security in Myanmar Burma She uses the ideas put forward in the United Nations Development Programme's 1994 report of human as opposed to state and security going on to argue that freedom from want and freedom from fear of the regime are in fact mutually supportive ideas and that the security of the people and the security of the state are in fact in a symbiotic relationship with each other Presenting new and significant information of the security concept of Myanmar Burma James original work considers economic development health education environmental issues the drugs trade human rights minority peoples and political social and economic reforms arguing that improved governance the development of civil society and economic development would both strengthen the state and ensure the security and well being of its citizens *Historical Dictionary of Burma (Myanmar)* Donald M. Seekins, 2017-03-27

Burma Myanmar is a Southeast Asian country that is emerging from crisis after more than a half century of hard line military rule and cultural diplomatic and economic isolation With the dissolution of its military regime the State Peace and Development Council in 2011 a formally civilian but military dominated constitutional government was inaugurated By 2012 Burma's president retired General Thein Sein had established a working relationship with Daw Aung San Suu Kyi the leader of the country's pro democracy movement since 1988 and after a 2012 by election she and members of her opposition party the National League for Democracy NLD entered the new Union Parliament as legislators However even with the election victory of Daw Suu Kyi and the NLD in the General Election of November 2015 Burma faces daunting challenges it is still one of the poorest countries in Southeast fissured by longstanding ethnic conflicts that have made a nationwide peace agreement elusive and its people's security and the environment are threatened by foreign economic exploitation Religious discord is also widely evident as Buddhist militants instigate violence against the country's religious minorities especially Muslims Today Burma's prospects are the most hopeful they have been for over half a century as the country takes steps along the road to a more open society and economy This edition of the Historical Dictionary of Burma Myanmar encompasses not only current developments but also Burma's over 1 500 years old recorded history and the most important features of its cultures ethnicity religions society and economy This is done through a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture *Historical Abstracts*, 1975 *Golden Dragon And Purple Phoenix: The Chinese And Their Multi-ethnic Descendants In Southeast Asia* Khoon Choy Lee, 2013-03-26 News Mixed Blood Chinese Culture Key Features

Rise of China and the Chinese Overseas Leo Suryadinata, 2017-01-26 With the rise of China and massive new migrations China has adjusted its policy towards the Chinese overseas in Southeast Asia and beyond This book deals with Beijing's policy which has been a response to the external events involving the Chinese overseas as well as the internal needs of China It appears that a rising China considers the Chinese overseas as a source of socio political and economic capital and would extend its protection to them whenever this is not in conflict with its core national interest The impacts on and the responses of the relevant countries especially those in Southeast Asia are also examined

Asymmetrical Neighbors Enze Han, 2019-08-12 Is the process of state building a unilateral national venture or is it something more collaborative taking place in the interstices between adjoining countries To answer this question Asymmetrical Neighbors takes a comparative look at the state building process along China Myanmar and Thailand's common borderland area It shows that the variations in state building among these neighboring countries are the result of an interactive process that occurs across national boundaries Departing from existing approaches that look at such processes from the angle of singular bounded territorial states the book argues that a more fruitful method is to examine how state and nation building in one country can influence and be influenced by the same processes across borders It argues that the success or failure of one country's state building is a process that extends beyond domestic factors such as war preparation political institutions and geographic and demographic variables Rather it shows that we should conceptualize state building as an interactive process heavily influenced by a neighborhood effect Furthermore the book moves beyond the academic boundaries that divide arbitrarily China studies and Southeast Asian studies by providing an analysis that ties the state and nation building processes in China with those of Southeast Asia

Kalimantan C. S. Godshalk, 1999-04-15 One hundred and sixty years ago a young Englishman founded a private raj on the coast of Borneo The world he created eventually took in a territory the size of England its expansion campaigns paid for in human heads Here polite Victorian conventions coexisted tenuously with one of the most violent cultures on earth often with startling results pockets of tenderness and extreme brutality appearing where least expected Into this world flowed a small tribe of adventurers fugitives criminals and saints the madly talented and simply mad And the women followed wives and would be wives spinster nursemaids and heartless schemers the rigidly virtuous and the virtually desperate And always the children innocents too often the victims of an elemental nature both lush and deadly Kalimantan is the story of this world these people But the deeper story resides in the realm of the heart It is about love in absurd conditions the tenacity of it as well as our ability to miss it repeatedly and with perverse genius
