Minilessons for Teaching Nonfiction Writing K-3 Lori Jamison Rog, 2015-12-11 Today's young learners know more about their world than ever before. This remarkable book shows that even our youngest writers can consider audience and purpose as they use nonfiction writing to document their ideas and share those ideas with others. But if students are going to be able to use writing to learn, they must have opportunities for learning to write. That's what this book is for. A wealth of hands-on minilessons offer strategies for writing informational, persuasive, and procedural text. Each lesson starts with a learning goal and follows an I do, we do, you do format. Teachers will find a wealth of ideas for guiding young students to write about what they know and care about.

Science Education For Citizenship Ratcliffe, Mary, Grace, Marcus, 2003-07-01 This is overwhelmingly a valuable book, particularly in the context of science education in the UK. It is a book that deserves to be read more widely by science teachers, particularly those who seek not simply to extend their repertoire of teaching techniques but who wish to place these techniques upon a sound academic footing. Educational Review: I have greatly enjoyed reading through *Science Education for Citizenship*. It is extremely informative and contains much of value. We will definitely be putting it on our MA in Science Education reading list. Dr Michael Reiss, Institute of Education, University of London. This innovative book explores the effective teaching and learning of issues relating to the impact of science in society. Research case studies are used to examine the advantages and problems as science teachers try new learning approaches, including ethical analysis, use of media reports, peer group decision making, discussions, and community projects. This book offers practical guidance in devising learning goals and suitable learning and assessment strategies, helps teachers to provide students with the skills and understanding needed to address these multi-faceted issues, explores the nature and place of socio-scientific issues in the
