Building the American Dream for the 21st Century, 1995 Japanese Education Roberta E. Pike, 2007 Presents a large representative sample of the literature on Japanese education with an emphasis on its psychosocial aspects Many discussions compare the Japanese educational system with that of the United States and other countries The citations cover most of the 1990s including a few earlier and later references Includes extensive discussions about Japanese educational reform movements and their consequences Also cites published and unpublished dissertations and theses Updates the last comprehensive English language bibliography on Japanese education published by Ulrich Teichler in 1974 The citations were taken from many online databases Suitable for students teachers scholars and the general public The Survival in the 21st Century, 1988 *A Report from the U.S. Study of Education in Japan*, 1987 **Teaching and Learning in Japan** Thomas P. Rohlen, Gerald K. LeTendre, 1998 Includes bibliographical references and index **International Perspective on Health Care** United States. Congress. House. Select Committee on Aging, 1984 **Japan, who Governs?** Chalmers Johnson, 1995 The godfather of Japanese revisionism author of MITI and the Japanese Miracle and president of the Japan Policy Research Institute explains how and why Japan has become a world power in the past 25 years Johnson lucidly explains here how the Japanese economy will thrive as it moves from a producer dominated economy to a consumer oriented headquarters for all of East Asia Japan as -anything But- Number One Jon Woronoff, 1991 Is Japan No 1 Well maybe it is if you are taken in by the tatemaie i.e. the official version or how its admirers like to picture it But it does not look so great once you perceive the honne i.e. the realities of life in Japan Is Japan No 1 Well maybe it is if you take what is best in Japan and contrast it to what is less good in foreign countries But it does not compare so well if you mix the good with the bad in both places **Japan Report**, 1978 *Handbook of Asian American Health* Grace J. Yoo, Mai-Nhung Le, Alan Y. Oda, 2012-10-12 Asian Americans encounter a range of health issues often unknown to the American public policy makers researchers and even clinicians National research often combines Asian Americans into a single category not taking into account the differences and complexity among Asian ethnic subgroups The definition of Asian American derives from the U S Census Bureau's definition of Asian which includes peoples from all the vast territories of the Far East Southeast Asia and the South Asian Subcontinent While Census classifications determine demographic measurements that affect equal opportunity programs the broad rubric Asian American can never describe accurately the more than 50 distinct Asian American subgroups who together comprise multifaceted diversity across cultural ethnicities socio economic status languages religions and generations This volume rectifies that situation by exploring the unique needs and health concerns of particular subgroups within the Asian American community It consolidates a wide range of knowledge on various health issues impacting Asian Americans while also providing a discussion into the cultural social and structural forces impacting morbidity mortality and quality of life The volume is designed to advance the understanding of Asian American health by explaining key challenges and identifying

emerging trends faced in specific ethnic groups and diseases illnesses innovative community based interventions and the future needed areas of research **Journal of the American Oriental Society** ,1880 List of members in each volume
