Leaving Cert Exam Papers Solutions:

Leaving Certificate Physics Notes James O'Donnell, 2017-03-09 These notes treat of the Leaving Certificate Physics course Only the most important parts of any topic are included as such these notes form the minimum you need to know to get an A1 Clear diagrams are included to illustrate important material in the text especially in Light 1 Geometrical Optics with its inherently graphical nature It is important to note that significant emphasis is placed on the theoretical part of the syllabus each student's own experiment copybook should be their keystone for that aspect of the course However for the sake of completeness appendix B forms a concise overview of the mandatory experiments with particular emphasis on those salient points which frequently crop up in exams Moreover the Applied Electricity option has been omitted since seldom do students warm to it and indeed very few teachers cover it the particle physics option is included instead in the Modern Physics section

Leaving Certificate Economics Notes James O'Donnell, 2017-05-09 These notes treat of the Leaving Certificate Higher Level Economics course The coverage is as short and concise as possible to aid the student's learning It was necessary to omit certain topics such as population economics and development however all omissions concern material which is not central to the course or an understanding of economics As such these notes form the minimum course of economics required to get an A1 in the Irish Leaving Certificate or at least to do very well It is important to note that these notes should be utilised in conjunction with past papers and past marking schemes in order to maximise examination performance
