Practical Research and Statistics K.J. Kovach, 2018-03-19 The main aim of this new book is to provide a single efficient and effective source for college and university students to understand research development and learn then apply statistical concepts while developing a Research Proposal or Research Study using the American Psychological Association APA format. It is a specialist text particularly well suited for introductory accelerated and short courses that emphasize quantitative approaches within research activities. After teaching over 30 years the authors know that several different texts commonly must be bought or used in learning to develop a research proposal or research study. Additionally many colleges and universities have combined various research and statistical courses into one course or program. Students therefore have to learn what research is and its many concepts learn various descriptive and inferential statistics and apply APA format for completed reports during one school term. Instructors as well as students easily appreciate that a detailed grasp of the above three components during a single university course would be a daunting task. Hence the authors offer this practical integration and application of all three components into a single recommended text as an efficient effective bridge to learning these complex areas. Mind Maps are used to help readers organize the many detailed concepts and techniques herein. These Mind Maps are presented with the central concept at or near the middle of the diagram and subordinate concepts and techniques arranged as branches clockwise from the upper right around to the upper left. For Instructors adopting this text an Instructor Guide chapter PowerPoint R files and Test bank will be provided to facilitate the one course concept email a request to KJKovach@btinternet.com. See also the authors web site <https://PracticalResearchandStatistics.com>. Authors Note: Certain technical examples and tables may not display as desired in the ebook version of our text particularly on smaller screens. You may download pdf versions of selected tables figures and examples from the authors web site <https://PracticalResearchandStatistics.com>. Alternatively viewing our text on a larger display PC or Mac should resolve most display issues.

Advances in Hospitality and Leisure Joseph S. Chen, 2018-12-05 This fourteenth annual volume includes eight full papers and three research notes. As for data collection most articles deploy either a quantitative or qualitative approach while two present conceptual models.

How Ants Build Pyramids Karl R. Rabes, 2019-08-07 Karl R Rabes explores the performance impact of differing task designs in crowdsourcing especially micro task markets Based on several exploratory literature reviews the manuscript applies the task technology fit theory and numerous quasi experiments to show which tasks can be successfully outsourced to the crowd It is revealed how a tasks design has an influence on solution quality taking into account respective task technology and individual characteristics and clearly delineates the differences in objective quality and subjective fit evaluations within and between task designs for micro task markets

Decolonisation of Materialities or Materialisation of (Re-)Colonisation Nhemachena, Artwell, Kangira, Jairos, 2017-11-28 Contemporary scholarly discourses about decolonising materialities are taking two

noticeable trajectories the first trajectory privileges establishing connections relationships and associations between human beings and nature The second trajectory privileges restoration restitution reparations for colonial dispossessions lootings and disinheritance While the first trajectory presupposes that colonialism was merely about separation alienation and disconnections between human beings and nature the second trajectory stresses the colonialists dispossession disinheritance and privations of Africans Drawing on contemporary discourses about materialities in relation to semiotics non representationalism rhetoric ecocriticism territorialisation deterritorialisation and reterritorialisation translation animism science and technology studies this book teases out the intellectually rutted terrain of African materialities It argues that in a world of increasing impoverishment the significance of materialities cannot be overemphasised more so for the continent of Africa where impoverishment materialises in the midst of resource opulence The book is a pacesetter in no holds barred interrogation of African materialities
