A War on Global Poverty Joanne Meyerowitz,2021-04-20 A history of US involvement in late twentieth century campaigns against global poverty and how they came to focus on women A War on Global Poverty provides a fresh account of US involvement in campaigns to end global poverty in the 1970s and 1980s From the decline of modernization programs to the rise of microcredit Joanne Meyerowitz looks beyond familiar histories of development and explains why antipoverty programs increasingly focused on women as the deserving poor When the United States joined the war on global poverty economists policymakers and activists asked how to change a world in which millions lived in need Moved to the left by socialists social democrats and religious humanists they rejected the notion that economic growth would trickle down to the poor and they proposed programs to redress inequities between and within nations In an emerging women in development movement they positioned women as economic actors who could help lift families and nations out of destitution In the more conservative 1980s the war on global poverty turned decisively toward market based projects in the private sector Development experts and antipoverty advocates recast women as entrepreneurs and imagined microcredit with its tiny loans as a grassroots solution Meyerowitz shows that at the very moment when the overextension of credit left poorer nations bankrupt loans to impoverished women came to replace more ambitious proposals that aimed at redistribution Based on a wealth of sources A War on Global Poverty looks at a critical transformation in antipoverty efforts in the late twentieth century and points to its legacies today Code of Federal Regulations ,1993 Special edition of the Federal register containing a codification of documents of general applicability and future effect as of July with ancillaries **House documents** ,1880 Publications of the Southampton Record Society ...
