Islamic Law and Ethics David R. Vishanoff ,2020-09-01 Does Islamic law define Islamic ethics Or is the law a branch of a broader ethical system Or is it but one of several independent moral discourses Islamic and otherwise competing for Muslims allegiance The essays in this book present a range of answers some take fiqh as the defining framework for ethics others insert the law into a broader ethical system and others present it as just one among several parallel Islamic ethical discourses or show how Islamic ethics might coexist with non Muslim normative systems Their answers have far reaching implications for epistemology for the authority of jurists and lay Muslims for the practical moral challenges of daily life and for relationships with non Muslims The book presents Muslim ethicists with a strategic contemporary choice should they pursue a single overarching methodology for judging all ethical questions or should they relish the rhetorical and political competition of alternative but not necessarily incompatible moral discourses

The Thinker, 1892 **Is the Good Corporation Dead?** John W. Houck, Oliver F. Williams, 1996 Can corporations remain socially responsible in today's fiercely competitive global economy For several decades after World War II companies like IBM which exemplified what journalist Robert J Samuelson called the good corporation poured forth material comforts and technological ideas while guaranteeing full employment and adequate retirement In the 1980s all of that changed as corporations moved to downsize and become lean mean global competitors In this collection thirteen prominent scholars in business ethics finance management and religion and six corporate leaders respond to a new essay by Samuelson that sounds the death knell of the

good corporation They propose new approaches to corporate integrity and social responsibility in the global economy The book will be useful in corporate workshops and will make an excellent business ethics text in philosophy departments and business schools Law, Anthropology, and the Constitution of the Social Alain Pottage, Martha Mundy, 2004-06-24 This collection of interdisciplinary essays explores how persons and things the central elements of the social are fabricated by legal rituals and institutions The contributors legal and anthropological theorists alike focus on a set of specific institutional and ethnographic contexts and some unexpected and thought provoking analogies emerge from this intellectual encounter between law and anthropology For example contemporary anxieties about the legal status of the biotechnological body seem to resonate with the questions addressed by ancient Roman law in its treatment of dead bodies The analogy between copyright and the transmission of intangible designs in Melanesia suddenly makes western images of authorship seem quite unfamiliar A comparison between law and laboratory science presents the production of legal artefacts in new light These studies are of particular relevance at a time when law faced with the inventiveness of biotechnology finds it increasingly difficult to draw the line between persons and things Leading and Managing in Canadian Nursing E-Book Patricia S.
