**Diversified Urbanization** Madio Fall, Souleymane Coulibaly, 2016-09-12 C te d Ivoire seeks a development strategy to reach middle income status a challenge that would require annual growth rates averaging 10 percent over the next 13 years Global experience of both developed and emerging economies shows that GDP per capita rises with increased urbanization However C te d Ivoire s economy is underperforming relative to its level of urbanization The country s urbanization has been negatively correlated with income per capita since the late 1970s and poverty has been increasing Rather than consider development of cities individually successful urbanization plans in C te d Ivoire should consider the country s cities as a portfolio of assets each differentiated by characteristics that include size location and

density of settlements The authors of *Diversified Urbanization The Case of Côte d'Ivoire* identify three types of cities on the basis of their contribution to growth and job creation Global Connectors Regional Connectors along major corridors for regional transport and trade and Domestic Connectors of localization economies for agribusiness Stakeholders from the national government local governments and the private sector have a shared vision for urbanization in the country cities that are planned structured competitive attractive inclusive and organized around development poles To achieve this vision and the goal of middle income status Ivorian policy makers need to act urgently to support diversified urbanization across all city types This book identifies important constraints and opportunities along four dimensions planning connecting greening and financing cities

*Global Street Design Guide* Global Designing Cities Initiative, National Association of City Transportation Officials, 2016-10-13 The *Global Street Design Guide* is a timely resource that sets a global baseline for designing streets and public spaces and redefines the role of streets in a rapidly urbanizing world The guide will broaden how to measure the success of urban streets to include access safety mobility for all users environmental quality economic benefit public health and overall quality of life The first ever worldwide standards for designing city streets and prioritizing safety pedestrians transit and sustainable mobility are presented in the guide Participating experts from global cities have helped to develop the principles that organize the guide The *Global Street Design Guide* builds off the successful tools and tactics defined in NACTO's *Urban Street Design Guide* and *Urban Bikeway Design Guide* while addressing a variety of street typologies and design elements found in various contexts around the world

*Public-Private Partnerships in Urban Bus Systems* Alejandro Hoyos Guerrero, Abel Lopez Dodero, 2021-06-25 Many cities have sought to replicate the urban bus public private partnership PPP structures that succeeded at the beginning of the millennia such as those implemented in Brazil Colombia and Mexico These cities improved their public transportation systems in the face of rapid urbanization rising air pollution and increasing road safety incidents through these PPP interventions Examining these past international experiences and others *Public Private Partnerships in Urban Bus Systems An Analytical Framework for Project Identification and Preparation* first challenges the assumption that PPP structures are always the optimal approach for improving urban bus systems The authors use relevant case studies to demonstrate that structuring such PPPs in cities in the developing world requires tailor made interventions that respond to local contexts The authors identify essential elements for PPP feasibility and invite readers to consider alternative solutions for achieving the desired objectives This book presents an analytical framework that public transportation practitioners can use to support the process of identifying and preparing appropriate technical financial and legal structures to improve urban mobility if a PPP is the preferred solution It follows a detailed risk based approach to thoroughly analyze the challenges that might be experienced by cities that pursue private participation in proposed urban bus interventions Using specific examples the authors thoroughly analyze the risks and the specific potential planning stage challenges likely to be encountered and suggest strategies for practitioners to respond to the local contexts and the various

alternative solutions This study builds upon international experiences predominantly in Latin America and in PPPs focused on streamlining fleet provision and operation Finally the book helps to identify and define bankable project structures that could respond well to local contexts and minimize risks

**Public Sector Marketing Communications Volume I** Ogechi Adeola,Paul Katuse,Kojo Kakra Twum,2022-10-03 African nations are seeking ways to build strong institutions that are development oriented and people centred Extant literature has reported the negative consequences of ineffective government communications with the public In response this book the first of a two volume edited work focuses on marketing communication themes related to branding public relations trade fairs and exhibitions and public sector communications Public sector marketing communication plays a crucial role in bridging the gap between society and the government Building a relationship with the public through appropriate communication tools and platforms is sacrosanct to restoring public sector image and trust The book supports this effort by sharing conceptual and theoretical research towards the marketisation of Africa s public sector as it strives to become an effective partner with the public it serves Together with the second volume which focuses on traditional and digital perspectives this collection fills an existing information gap that is evident in Africa s public sector

*Climate Change and Cities* Cynthia Rosenzweig,William D. Solecki,Patricia Romero-Lankao,Shagun Mehrotra,Shobhakar Dhakal,Somayya Ali Ibrahim,2018-03-29 The Urban Climate Change Research Network s Second Assessment Report on Climate Change in Cities ARC3 2 is the second in a series of global science based reports to examine climate risk adaptation and mitigation efforts in cities The book explicitly seeks to explore the implications of changing climatic conditions on critical urban physical and social infrastructure sectors and intersectoral concerns The primary purpose of ARC3 2 is to inform the development and implementation of effective urban climate change policies leveraging ongoing and planned investments for populations in cities of developing emerging and developed countries This volume like its predecessor will be invaluable for a range of audiences involved with climate change and cities mayors city officials and policymakers urban planners policymakers charged with developing climate change mitigation and adaptation programs and a broad spectrum of researchers and advanced students in the environmental sciences
