Cloud computing has experienced explosive growth and is expected to continue to rise in popularity as new services and applications become available. As with any new technology, security issues continue to be a concern, and developing effective methods to protect sensitive information and data on the cloud is imperative. **Cloud Security Concepts, Methodologies, Tools and Applications** explores the difficulties and challenges of securing user data and information on cloud platforms. It also examines the current approaches to cloud-based technologies and assesses the possibilities for future advancements in this field. Highlighting a range of topics such as cloud forensics, information privacy, and standardization and security in the cloud, this multi-volume book is ideally designed for IT specialists, web designers, computer engineers, software developers, academicians, researchers, and graduate-level students interested in cloud computing concepts and security.

Practical Prescribing for Medical Students Helen Bradbury, Barry Strickland Hodge, 2013-11-08. Learning to prescribe is an essential part of medical training. Due to various high-profile serious prescribing errors, the GMC have introduced stricter prescribing standards which medical students must meet in order to graduate. This book helps medical students learn the essentials of safe prescribing practice and is aimed directly at their needs. It covers all the aspects of prescribing required by the GMC, including principles of prescribing law and ethics, professional responsibilities, patient communication at risk groups, avoiding common errors, and what to do when things go wrong. Key features: Directly linked to the prescribing competencies in the GMC's Tomorrow's Doctors and Good Practice in Prescribing Medicines. Real-life prescribing case studies and scenarios relate the principles to actual practice and placement situations. Activities throughout each chapter for testing prescribing knowledge and skills. Test questions for the new Prescribing Skills Assessment to help students prepare and be confident that they can pass.
