

IEP GOALS

FOR SELF-REGULATION

Using Strategies: When faced with a challenging assignment, a student recognizes feelings of frustration and employs deep breathing strategies learned in social-emotional learning sessions. The student takes a few deep breaths to calm down and refocus, allowing for better emotional regulation and the ability to approach the task with a clearer mindset.

Inhibition:
student patiently waits for their turn to speak without interrupting others.

Planning:
student is assigned a research project. They create a detailed plan that includes selecting a topic, gathering resources, outlining key points, and establishing a timeline for completing different stages of the project.

Cognitive Flexibility:
During a group activity, a student is asked to switch from working on a math problem to contributing ideas for a collaborative writing project. The student demonstrates cognitive flexibility by smoothly transitioning between these different tasks.

Customizing Learning Plans explores how personalized learning and Individualized Education Programs IEPs can empower students with learning disabilities. It highlights the shift from segregated classrooms to inclusive practices, emphasizing the importance of understanding learning disabilities, diagnostic criteria, and relevant legal frameworks. The book emphasizes that IEPs are not just compliance documents but dynamic tools for unlocking student potential through data-driven strategies and collaborative support. The book details evidence-based strategies for differentiated instruction, creating measurable goals, and fostering student self-advocacy. Chapters progress from introducing personalized learning principles to practical guidance on implementing and evaluating customized learning plans. It presents case studies, research findings, and examples of successful IEPs. What makes this book unique is its emphasis on student voice. It promotes active student participation in designing and implementing their learning plans, fostering self-awareness and goal setting. By connecting psychology, education, and sociology, Customizing Learning Plans offers a holistic view of student success, addressing the psychological impact of learning disabilities and the importance of collaborative strategies.

Inclusive Instruction for Students with Emotional and Behavioral Disorders Reesha Adamson, John William McKenna, 2020-11-05 Inclusive Instruction for Students with Emotional and Behavioral Disorders Pulling Back the Curtain discusses the challenges of the increasingly common practice of educating students with disabilities in general education classrooms citing that these challenges are often due to the fast pace of instruction the emphasis on advanced concepts and skills that align with college and career readiness standards and the presence of poorly developed prerequisite skills that are necessary for traditional academic success This book posits that these challenges are particularly salient to the education of students receiving special education services for emotional disturbance ED as students with ED have pervasive learning and behavioral difficulties that are often resistant to typical instruction and intervention Contributors argue that despite increased awareness and application of inclusive mindsets school and post school outcomes for this student population continue to be a national concern in the United States In this book contributors provide recommendations for improving the manner in which schools serve this student population through inclusive measures along with resources for administrators teachers and parents guardians that emphasize the provision of a free appropriate public education for students with ED Scholars of education disability studies and psychology will find this book particularly useful
