Emotional State Theory Friendship And Fear In Israeli Foreign Policy:

Emotional State Theory Christopher L. Schilling, 2015 This book develops emotional state theory as a new contribution to international relations theory IR The text addresses the State of Israel vis vis the rest of the world The rationale for this research perspective stems from the trajectory of Israeli state building since its foundation in May 1948 to the present date This trajectory is constructed reflecting the trauma of the past and dreams about the future Both contribute decisively to a better understanding of the current image and position of the state of Israel The reference builds on two great Jewish thinkers works Theodor Herzl and his book *The Jewish State* and Sigmund Freud's *The Interpretation of Dreams* The author argues that despite the fact that both never met taken together their ideas lend themselves to shed light on and offer an explanation for Israel's troubled and uncertain position in current international relations The resulting question underlying this work on the emotionality of states and its impact on international relations is therefore whether Israel is still in a process of dreaming and whether it is therefore to be understood a state which has not yet woken from the trauma of the Jewish past Not a dream's fulfilment of an end of the Diaspora but a nightmare based on this experience Drawing on these two parallel and rather influential texts Schilling rephrases the leading questions of this book as this Has Israel developed an understanding of itself which sees the country as a modern state among the nations which is dealing with its neighbors or rather does Israel understand itself more as being like a ghetto that is still surrounded by a hostile world Has Israel become a strong self confident country or has it continued with the nervousness of the Diaspora Jews to become a state with an emotional problem
