The A to Z of the Russo-Japanese War Rotem Kowner, 2009-08-20 Every war leaves an imprint in history but few have had such a pervasive impact in so many respects as the Russo Japanese War of 1904-1905 Politically it fatally weakened the Russian Empire while allowing Japan to follow more dangerous paths Diplomatically it shook the power balance in Europe and reshaped it in the form of two coalitions leading to World War I With regard to the art of warfare it emphasized the use of trench warfare and machine guns on land and the deployment of battleships and the use of torpedoes at sea Yet despite its importance at the time it has become very much a forgotten war The A to Z of the Russo Japanese War provides considerable breadth and depth of coverage based on Japanese Russian and Western sources The breadth is accomplished through a wide ranging introduction a detailed chronology and an extensive bibliography The depth comes in the hundreds of entries on military and political leaders major battles and lesser encounters tactics and strategy as well as the weaponry and of course the causes and consequences The result is the first

INTRODUCTION The Seabees of the United States Navy were born in the dark days following Pearl Harbor when the task of building victory from defeat seemed almost insurmountable The Seabees were created in answer to a crucial demand for builders who could fight Using sailors to build shore based facilities however was not a new idea Ancient Egyptians Phoenicians Greeks and Romans did it In more recent times from the earliest days of the United States Navy sailors who were handy with tools occasionally did minor construction chores at land bases After the 7 December 1941 Japanese attack on Pearl Harbor and the United States entry into the war the use of civilian labor in war zones became impractical Under international law civilians were not permitted to resist enemy military attack Resistance meant summary execution as guerrillas The need for a militarized Naval Construction Force to build advance bases in the war zone was self evident Therefore Rear Admiral Ben Moreell determined to activate organize and man Navy construction units On 28 December 1941 he requested specific authority to carry out this decision and on 5 January 1942 he gained authority from the Bureau of Navigation to recruit men from the construction trades for assignment to a Naval Construction Regiment composed of three Naval Construction Battalions This is the actual beginning of the renowned Seabees who obtained their designation from the initial letters of Construction Battalion Admiral Moreell personally furnished them with their official motto Construiamus Batuimus We Build We Fight

First Lessons in Our Country's History: Bringing Out Its Salient Points, and Aiming to Combine Simplicity with Sense William Swinton, 1872

Early Pacific Raids 1942 Brian Lane Herder, 2023-06-22 A fascinating exploration of how between February 1 and March 10 1942 three small US task forces launched several unexpected raids across the Japanese defensive perimeter in the Central and South Pacific After the devastating Japanese blows of December 1941 the Allies found themselves reeling with defeat everywhere in the Pacific Although stripped of his battleships and outnumbered 10 3 in carriers the US Navy commander in chief Admiral Ernest J King decided to hit back at Japan s rapidly expanding Pacific empire immediately in an effort to keep the Japanese off balance On February 1 1942 Vice Admiral Bill Halsey led the US Pacific Fleet carriers on their first raid using high speed hit and run tactics to strike at the Japanese at a time when most of the Japanese carrier fleet was in the Indian Ocean Halsey s aggressive commitment inspired its American participants to invent the mythical Haul Ass With Halsey club The last of the 1942 US carrier raids in March 1942 would form a defining moment in the Pacific War prior to a new phase of high seas battles between the opposing fleets

This superbly illustrated book documents for the first time in a single volume this little known but important World War II naval campaign. The fabulous illustrations including maps and colour artworks bring to life the US air and naval raids on the Japanese bases in the Marshall and Gilbert Islands, Rabaul, Wake Island, Marcus Island, and Lae and Salamaua in northern New Guinea. Digesting History Hal M. Friedman, 2010-05-20 Product Description Digesting History The U S Naval War College the Lessons of World War II and Future Naval Warfare 1945-1947 by Professor Hal M. Friedman studies the contribution of the Naval War College especially in the presidency of Admiral Raymond Spruance to strategic thought during the first critical postwar years that is between the end of the war and the formulation of Containment. This transition period is especially valuable as a window through which to explore institutions such as the College in transition from a hot war to a cold one. While seminal studies exist of the College's work in the interwar years, none have been published on this period.
