Logical Reasoning

1. Tanya is older than Eric.

Cliff is older than Tanya.

Eric is older than Cliff.

If the first two statements are true, the third statement is

- A. true
- B. false
- C. uncertain

See the Answer

The correct answer is B.

Explanation:

Because the first two statements are true, Eric is the youngest of the three, so the third statement must be false.

2. Blueberries cost more than strawberries.

Blueberries cost less than raspberries.

Raspberries cost more than strawberries and blueberries.

If the first two statements are true, the third statement is

- A. true
- B. false
- C. uncertain

See the Answer

The correct answer is A.

Explanation:

Because the first two statements are true, raspberries are the most expensive of the three.

Each problem consists of three statements. Based on the first two statements, the third statement may be true, false, or uncertain.

Assessment and Testing Harry Schofield,2020-03-12 Originally published in 1972 there were many classics dealing with assessment and testing on the market at the time but most of these left the inexperienced reader bewildered in the early stages because of their size and insufficient explanation of the many technical terms used There were a distinct lack of books which gave students in Colleges of Education dealing with psychology for the first time a simple explanation of basic terms in

assessment and testing and which introduced them briefly to the different types of tests available Assessment and Testing aimed to fill this large gap It looks at such key psychological terms as sample objectivity subjectivity and such basic statistical terms such as mean standard deviation and normal curve of distribution Because it assumes that the reader has no knowledge of such terms it gives careful and simply illustrated explanations of each In the same way in simple language with any technical terms explained and illustrated it explains intelligence and personality tests questionnaires sociometric measures projection techniques and other areas of assessment and testing which every practising teacher will meet The book aims to be essentially practical It is appreciated all the time that the readers are those who will teach children It is designed to provide a solid foundation upon which the reader can build later to augment his own experience of identifying children s particular needs
