

READING FLUENCY

Read the passages below and count how long you take to read them!

The Wink!

The big day was here. Rosa was in the school orchestra and tonight was the winter concert. It was the first time she would play the piano in front of an audience.

Rosa was worried all day in school. When she got home she had butterflies in her stomach. She was still scared when she left for the concert. Rosa went backstage and peeked out from behind the curtain and watched her friend Sam play his horn. Sam never made a mistake. He looked fine. Then Rosa saw her parents in the third row. Her father caught her eye and winked. Suddenly, Rosa knew she could do it. She would pretend she was playing for just her mom and dad.

Rosa stepped onto the stage. She played her song well. When it was over, Rosa grinned. She winked at her parents and ran off the stage. Rosa's stage fright was over.

First Second Grade Fluency Passages:

Handbook of Response to Intervention Shane R. Jimerson, Matthew K. Burns, Amanda VanDerHeyden, 2007-08-14 Until now practitioners have had access to few detailed descriptions of RTI methods and the effective role they can play in special education The Handbook of Response to Intervention fills this critical information gap In this comprehensive volume more than 90 expert scholars and practitioners provide a guide to the essentials of RTI assessment and identification as well as research based interventions for improving students reading writing oral and math skills **JEBPS Vol 6-N1** Journal of Evidence-Based Practices for Schools, 2005-02-15 The Journal of Evidence Based Practices for Schools is a leader in publishing research to practice articles for educators and school psychologists The mission of this journal is to positively influence the daily practice of school based professionals through studies demonstrating successful research based practices in educational settings As a result the editors are committed to publishing articles with an eye toward improving student performance and outcomes by advancing psychological and educational practices in the schools They seek articles using non technical language that 1 outline an evidence based practice 2 describe the literature supporting the effectiveness and theoretical underpinnings of the practice 3 describe the findings of a study in which the practice was implemented in an educational setting and 4 provide readers with information they need to implement the practice in their own schools in a section entitled Implementation Guidelines The Journal of Evidence Based Practices for Schools differs from other scholarly journals in that it features articles that demonstrate empirically based procedures for readers to apply the practice in their setting **Children's Reading Comprehension and Assessment** Scott G. Paris, Steven A. Stahl, 2005-03-23 The volume identifies critical issues and cutting edge research in assessing children s reading comprehension A Measure of Success Christine Espin, 2012 Simple in concept far reaching in implementation Curriculum Based Measurement CBM was developed in the 1980s as an efficient way to assess the progress of struggling students including those with disabilities Today there are few areas of special education policy and practice that have not been influenced by CBM progress monitoring The impact of CBM is reflected in recent education reforms that emphasize improvements in assessment and data based decision making Gathering an international group of leading researchers and practitioners A Measure of Success provides a comprehensive picture of the past present and possible future of CBM progress monitoring The book will be instrumental for researchers and practitioners in both general and special education particularly those involved in the rapidly growing Response to Intervention RTI approach an approach used to determine the performance and placement of students with learning difficulties A Measure of Success presents a nuanced examination of CBM progress monitoring in reading math and content area learning to assess students at all levels from early childhood to secondary school and with a wide range of abilities from high and low incidence disabilities to no disabilities This study also evaluates how the approach has affected instructional practices teacher training psychology and school psychology educational policy and research in the United States and beyond
