Friday 7th November 2014 Maths Foundation:

Elections in Museveni's Uganda Sam Wilkins, Richard Vokes, 2018-12-07 Uganda's 2016 elections which returned thirty year incumbent President Yoweri Museveni and his National Resistance Movement NRM in yet another landslide took place in an atmosphere of patronage coercion and fraud But is this diagnosis sufficient to understand the processes of voting and regime maintenance in Uganda today Based on a series of detailed case studies from across Uganda this book provides a more nuanced and complex picture of what the Museveni regime is and how it keeps winning elections Whilst not denying that various electoral malpractices are systemic to the regime's survival the authors find that these cannot be extricated from Uganda's history its wider social realities and its local political cultures in which the NRM has become so embedded In so doing the authors who include anthropologists development specialists historians geographers and political scientists develop new ways of thinking about the meaning of voting and elections in non democratic Uganda and elsewhere This edition was originally published as a special issue of the Journal of Eastern African Studies
