The Reluctant Modernism of Hannah Arendt Seyla Benhabib, 2003-07-01 Interpreting the work of one of the most influential thinkers of the 20th century The Reluctant Modernism of Hannah Arendt rereads Arendt's political philosophy in light of newly gained insights into the historico cultural background of her work Arguing against the standard interpretation of Hannah Arendt as an anti modernist lover of the Greek polis author Seyla Benhabib contends that Arendt's thought emerges out of a double legacy German Existenz philosophy particularly the thought of Martin Heidegger and her experiences as a German Jewess in the age of totalitarianism This important volume reconsiders Arendt's theory of modernity her concept of the public sphere her distinction between the social and the political her theory of totalitarianism and her critique of the modern nation state including her life long involvement with Jewish and Israeli politics *Feminist Interpretations of Hannah Arendt* Bonnie Honig, 2010-11-01 Exclusion, Exile, and the Wandering Jew in Jewish Literature Regine Rosenthal, 2024-02-06 Based on a medieval extrabiblical Christian legend the figure of the Wandering Jew has long served as a negative representation of all Jews Condemned by Christ to endless wandering and everlasting life the Wandering Jew has lived on ever since in literature and criticism as a legendary and symbolic paradigm ranging from anti Jewish stereotype to the generalized cultural Other While Romanticism took him outside of the Jewish context nineteenth century antisemitic racism again adopted the figure in an evolving discourse that culminated in his image in Nazi propaganda as the despicable racialized cultural Other who needed to be exterminated The present work takes up this trope in all its complex intersecting facets and shifts the focus of the inquiry from the perspective of the dominant culture to that of the Jewish Other Starting with nineteenth century American popular and mainstream writers it explores the responses to and the subversions and reinventions of the paradigmatic figure in works by a variety of European Canadian and American Jewish writers and thinkers It also opens the discussion to the broader issues of contemporary society and politics such as pervasive uprootedness transborder migration the plight of refugees and states rights versus human rights *Speaking through the Mask* Norma Claire Moruzzi, 2018-09-05 Hannah Arendt was famously resistant to both psychoanalysis and feminism Nonetheless psychoanalytic feminist theory can offer a new interpretive strategy for deconstructing her equally famous opposition between the social and the political Supplementing critical readings of Arendt's most significant texts including The Human Condition On Revolution Rahel Varnhagen The Origins of Totalitarianism Eichmann in Jerusalem and The Life of the Mind with the insights of contemporary psychoanalytic feminist and social theorists Norma Claire Moruzzi reconstitutes the relationship in Arendt's texts between constructed social identity and political agency Moruzzi uses Julia Kristeva's writings on abjection to clarify the textual dynamic in Arendt's work that constructs the social as a natural threat Joan Riviere's and Mary Ann Doane's work on feminine masquerade amplify the theoretical possibilities implicit in Arendt's own discussion of the public political mask In a bold interdisciplinary synthesis Moruzzi develops the social applications of a

concept the mask Arendt had described as limited to the strictly political realm a new conception of political agency as social masquerade traced through the marginal but emblematic textual figures who themselves enact the politics of social identity

Rahel: Her Life and Letters Mrs. Kate Vaughan Jennings, 1876 **Alienation** Rahel Jaeggi, 2014-07-15 The Hegelian Marxist idea of alienation fell out of favor during the post metaphysical rejection of humanism and essentialist views of human nature In this book Jaeggi draws on phenomenological analyses grounded in modern conceptions of agency along with recent work in the analytical tradition to reconceive of alienation as the absence of a meaningful relationship to oneself and others which manifests itself in feelings of helplessness and the despondent acceptance of ossified social roles and expectations A revived approach to alienation helps critical social theory engage with phenomena such as meaninglessness isolation and indifference which have broad implications for issues of justice By severing alienation's link to a problematic conception of human essence while retaining its social philosophical content Jaeggi provides resources for a renewed critique of social pathologies a much neglected concern in contemporary liberal political philosophy Her work revisits the arguments of Rousseau Hegel Kierkegaard and Heidegger placing them in dialogue with Thomas Nagel Bernard Williams and Charles Taylor

Regions of Sorrow Susannah Young-ah Gottlieb, 2003 W H Auden and Hannah Arendt belonged to a generation that experienced the catastrophic events of the mid twentieth century and they both sought to respond to the enormity of the novel phenomena they witnessed Regions of Sorrow explores the remarkable affinity between their works As incisive exponents and uncompromising proponents of the insuperable condition of plurality Auden and Arendt give voice to an unexpected and inconspicuous messianism a messianism in which contingency frailty and faultiness are neither rejected nor scorned but celebrated as the indispensable elements of what Auden calls anxious hope Beginning with an examination of Arendt's Origins of Totalitarianism and Auden's Age of Anxiety which both conclude with meditations on Nazi terror the author turns to an unprecedented presentation of Arendt's Human Condition in terms of Jewish German messianism and concludes with Auden's In Praise of Limestone which lays out the frail and faulty space in which messianism breaks free from apocalyptic forecasts

Rahel Varnhagen Hannah Arendt, 2022-02-22 A biography of a Jewish woman a writer who hosted a literary and political salon in late eighteenth and early nineteenth century Germany written by one of the twentieth century's most prominent intellectuals Hannah Arendt Rahel Varnhagen The Life of a Jewish Woman was Hannah Arendt's first book largely completed when she went into exile from Germany in 1933 though not published until the 1950s It is the biography of a remarkable complicated passionate woman and an important figure in German romanticism Rahel Varnhagen also bore the burdens of being an unusual woman in a man's world and an assimilated Jew in Germany She was Arendt writes neither beautiful nor attractive and possessed no talents with which to employ her extraordinary intelligence and passionate originality Arendt sets out to tell the story of Rahel's life as Rahel might have told it and in doing so to reveal the way in which assimilation defined one person's destiny On her deathbed Rahel is reported to have said The thing which all my life

seemed to me the greatest shame which was the misery and misfortune of my life having been born a Jewess this I should on no account now wish to have missed Only because she had remained both a Jew and a pariah Arendt observes did she find a place in the history of European humanity *Gender, Canon and Literary History* Ruth Whittle, 2013-08-28 It has been shown that the total number of women who published in German in the 18th and 19th centuries was approximately 3 500 but even by 1918 only a few of them were known The reason for this lies in the selection processes to which the authors have been subjected and it is this selection process that is the focus of the research here presented The selection criteria have not simply been gender based but have had much to do with the urgent quest for establishing a German Nation State in 1848 and beyond Prutz Gottschall Krey ig and others found it necessary to use literary historiography which had been established by 1835 in order to construct an ideal of Germanness at a time when a political unity remained absent and they wove women writers into this plot After unification in 1872 this kind of weaving seemed to have become less pressing and other discourses came to the fore especially those revolving round femininity vs masculinity and races The study of the processes at work here will enhance current debates about the literary canon by tracing its evolution and identifying the factors which came to determine the visibility or obscurity of particular authors and texts The focus will be on a number of case studies but instead of isolating questions of gender *Gender Canon and Literary History* will discuss the broader cultural context **Bitter**
