**Is Islam an Enemy of the West?** Tamara Sonn,2016-11-17 New York Washington Madrid London and now Paris the list of Western cities targeted by radical Islamic terrorists waging global jihad continues to grow Does this extreme violence committed in the name of Islam point to a fundamental enmity between the Muslim faith and the West In this compelling essay leading scholar of Islam Tamara Sonn argues that whilst the West has many enemies among Muslims it is politics not religion that informs their grievances The longer these demands remain frustrated the more violence has escalated and recruitment to groups like Islamic State has increased Far from quelling the spread of Islamic extremism Western military intervention has helped to turn nationalist movements into radical terrorist groups with international agendas Islam Sonn concludes is not the problem just as war is not the solution

**Islam and Sectarian Violence in Pakistan** Eamon Murphy,2018-10-23 This book analyses the growth of sectarian based terrorist violence in Pakistan one of the Muslim majority states most affected by sectarian violence ever since it was established in 1947 Sectarian violence among Muslims has emerged as a major global security problem in recent years The author argues that the upsurge in sectarian violence in Pakistan particularly since the late 1970s has had less to do with theological differences between the various sects of Islam but is a consequence of the specific political social economic demographic and cultural changes that have taken place in Pakistan since it was established as an independent state A major theme of the book is the increasing violence extent and expressions of sectarian conflict which have emerged as new forms of sectarian terrorism The volume provides an in depth empirical case study which addresses some major theoretical questions raised by Critical Terrorism Studies researchers in respect of the links between religion and sectarian terrorism in Pakistan and more widely This book will be of much interest to students of critical terrorism studies Asian politics and history religious studies and International Relations in general

Benkin, 2017-04-12 Radical Islam is a major affliction of the contemporary world Each year radical Islamists carry out terrorist attacks that result in a massive death toll almost all involving noncombatants and innocents Estimates of how many Muslims could be considered followers of radical Islam vary widely and there are few guides to help determine moderates versus radicals Observers often sit at the extremes either seeing all Muslims as open or closeted jihadis or recoiling from any attempt to link Islam with international terror Both positions are overly simplistic and the lack of rational principles to absolve the innocent and identify the accomplices of terror has led to governments and individuals mistakenly accepting jihadis as moderate What is Moderate Islam brings together an array of scholars Muslims and non Muslims to provide this missing insight This wide ranging collection examines the relationship among Islam civil society and the state The contributors including both Muslims and non Muslims investigate how radical Islamists can be distinguished from moderate Muslims analyze the potential for moderate Islamic governance and challenge monolithic conceptions of Islam *The Islamic Law of War* A. that this too undermines the Al Saud hold on power A riveting book informed authoritative illuminating about a country that could well be on the brink and an in depth examination of what all this portends for Saudi Arabia s future and for our own
