Bermudez,2021-10-15 How does spirituality enter the education of an architect Should it What do we mean by spirituality in the first place Isn t architectural education a training ground for professional practice and therefore technically and secularly oriented Is there even room to add something as esoteric if not controversial as spirituality to an already packed university curriculum The humanistic and artistic roots of architecture certainly invite us to consider dimensions well beyond the instrumental including spirituality But how would we teach such a thing And why if spirituality is indeed relevant to learning architecture have we heard so little about it Spirituality in Architectural Education addresses these and many other important philosophical disciplinary pedagogic and practical questions Grounded on the twelve year old Walton Critic Program at the Catholic University of America School of Architecture and Planning this book offers solid arguments and insightful reflections on the role that big questions and spiritual sensibility ought to play in the architectural academy today Using 11 design studios as stopping grounds the volume takes the reader into a journey full of meaningful interrogations pedagogic techniques challenging realizations and beautiful designs Essays from renowned architects Craig W Hartman Juhani Pallasmaa Alberto Campo Baeza Claudio Silvestrin Eliana B rmida Michael J Crosbie Prem Chandavarkar Rick Joy Susan Jones and Daniel Libeskind open new vistas on the impact of spirituality in architectural education and practice All this work is contextualized within the ongoing discussion of the role of spirituality and religion in higher education at large The result is an unprecedented volume that starts a long awaited conversation that will advance architectural schooling ACSA Distinguished Professor Julio Bermudez with recognized expertise on spirituality in architecture will be the guide in this fascinating and contemplative journey World Agricultural Economics and Rural Sociology Abstracts ,1983 **The Arms**

**Race in the Middle East** Mohammad Eslami,Alena Vysotskaya Guedes Vieira,2023-07-28 This edited volume discusses security policy and strategic policymaking in the Middle East region Due to its unique geopolitical geoeconomic and geostrategic features the Middle East region has been confronted with challenging security issues Combined with a lack of an efficient regional security regime this has led to the formation of a full fledged arms race This book draws together

contributions from international experts to address the factors that have been contributing to the ongoing formation of an arms race in the Middle East as well as the impact of this phenomenon on the regional and global security environment The book is organized in three sections The first section outlines the contemporary dynamics of the arms race in the Middle East by focusing on its most recent dynamics and their implications for regional and international security The second section conducts systematic analysis of case studies of country specific drivers of the arms race The third and final section examines the role of external actors in the arms race evaluating both the responses of regional actors to external interventions as well as the implications of the arms race for extra regional countries

Mediation and Immediacy Jenny Ponzo, Robert A. Yelle, Massimo Leone, 2020-12-07 Religion like any other domain of culture is mediated through symbolic forms and communicative behaviors which allow the coordination of group conduct in ritual and the representation of the divine or of tradition as an intersubjective reality While many traditions hold out the promise of immediate access to the divine or to some transcendent dimension of experience such promises depend for their realization as well on the possibility of mediation which is necessarily conducted through channels of communication and exchange such as prayers or sacrifices An understanding of such modes of semiosis is therefore necessary even and especially when mediation is denied by a tradition in the name of the ineffability of the deity or of mystical experience This volume models and promotes an interdisciplinary dialogue and cross cultural perspective on these issues by asking prominent semioticians historians of religion and of art linguists sociologists of religion and philosophers of law to reflect from a semiotic perspective on the topic of mediation and immediacy in religious traditions
