Calendar Wars Linda Hill, AI, 2025-03-05 *Calendar Wars* reveals that calendars seemingly fixed have been battlegrounds shaped by religion, politics, and the desire for order. The book explores how calendar reform ignited conflicts, highlighting the religious underpinnings of calendar systems, the impact of science on timekeeping, and the pursuit of a unified calendar. Calendars are not just tools; they reflect belief systems and power assertions influencing social and economic activities. For instance, the adoption of the Gregorian calendar faced resistance from various religious factions, illustrating deep-seated cultural and religious attachments to existing timekeeping methods. The book argues that calendar reform is a negotiation of power, tradition, and worldviews impacting society and shaping the modern world. It begins by establishing calendars' foundational role in ancient civilizations, then examines their evolution through religious conflict, scientific advancements, and attempts at universal standardization. *Calendar Wars* progresses to explore contemporary issues like daylight saving time and alternative calendar proposals, offering a fresh perspective on understanding broader historical trends through the lens of calendar reform.

The Islamic and Christian Calendars Greville Stewart Parker Freeman-Grenville, 1995 This is a new version of my *The Muslim and Christian calendars* 1963/1977 2nd ed, which is now out of date. The revision takes both Islamic and Christian dates up to AD 2222. The original was written primarily for eastern

Africa and has been altered to meet a wider demand and to emend errors in the earlier printing *Cultural Calendars* Mira Donnelly, AI, 2025-03-05 *Cultural Calendars* explores how societies measure time and how these systems reflect core beliefs and values. It delves into diverse calendar systems revealing how they shape cultural identity and social practices. Ancient civilizations like Egypt and Mesopotamia developed calendars based on astronomical observations and agricultural cycles influencing the social context of rituals, festivals, and agricultural practices. The book uniquely interprets calendars as cultural artifacts embodying a society's understanding of time and its place in the cosmos, challenging the notion of universally objective time. It examines lunar calendars prevalent in agrarian societies, solar calendars linked to agricultural cycles like the Gregorian calendar, and lunisolar calendars reconciling lunar and solar cycles such as traditional Chinese calendars. The book progresses by introducing fundamental concepts, exploring diverse calendars thematically, and discussing the impact of globalization and modernization. Through historical texts, archaeological findings, and ethnographic studies, *Cultural Calendars* connects to anthropology, sociology, and religious studies. It emphasizes respecting diverse timekeeping traditions and recognizing the cultural construction of time, which is essential for intercultural communication and preserving cultural heritage.

Africa Toyin Falola, Daniel Jean-Jacques, 2015-12-14 These volumes offer a one-stop resource for researching the lives, customs, and cultures of Africa's nations and peoples. Unparalleled in its coverage of contemporary customs in all of Africa, this multivolume set is perfect for both high school and public library shelves. The three-volume encyclopedia will provide readers with an overview of contemporary customs and life in North Africa and sub-Saharan Africa through discussions of key concepts and topics that touch everyday life among the nations' peoples. Spiritual Calendars Lennox Harlow, AI, 2025-03-05 *Spiritual Calendars* explores how diverse cultures and religions organize time through ritual observance and spiritual significance. It delves into sacred cycles and prayer schedules, revealing how these systems shape daily routines and communal identities. For instance, the book highlights how calendars influence not only annual festivals but also significant life cycle rituals. The book examines Abrahamic religions, Eastern traditions, and indigenous spiritualities, illustrating each group's unique approach to sacred time. It emphasizes that calendars are not static but have evolved through astronomical observations, agricultural cycles, and cultural interactions. Readers will discover that a culture's calendar is key to understanding its worldview, challenging the modern secular perception of time. *Spiritual Calendars* progresses from fundamental concepts to specific examples, drawing from religious texts, historical records, and

anthropological studies By analyzing primary source materials and conducting comparative studies the book reveals both the shared human roots and unique cultural expressions embedded in various calendrical systems This exploration promotes intercultural understanding and enriches our appreciation of human spiritual diversity
