Theodore De Banville David Evans, 2018-12-13 Theodore de Banville 1823 1891 was a prolific poet dramatist critic and prose fiction writer whose significant contribution to poetic and aesthetic debates in nineteenth century France has long been overlooked Despite his profound influence on major writers such as Baudelaire Rimbaud Verlaine and Mallarmé Banville polarised critical opinion throughout his fifty year career While supporters championed him as a virtuoso of French verse many critics dismissed his formal pyrotechnics effervescent rhythms and extravagant rhymes as mere clowning This book explores how Banville's remarkably coherent body of verse theory and practice full of provocative energy and mischievous humour shaped debates about poetic value and how to identify it during a period of aesthetic uncertainty caused by diverse social economic political and artistic factors It features a detailed new reading of Banville's most infamous and misunderstood text the *Petit Traité de poésie française* as well as extended analyses of verse collections such as *Les Stalactites* *Odes funambulesques* *Les Exiles* *Trente six Ballades* and *Rondels* illuminated by wide reference to Banville's plays fiction and journalism Evans elucidates not only aesthetic tensions at the heart of nineteenth century French verse but also a

centuries old tension between verse mechanisms and an unquantifiable mysterious and elusive poeticity which emerges as one of the defining narratives of poetic value from the Middle Ages via the Grands Rhétoriciens and Dada to the experiments of the OuLiPo and beyond

Cochran's book charts that influence on France Germany Italy Spain Poland and Russia with individual chapters on Goethe Pushkin and Baudelaire and one special chapter on Ibsen who called *Peer Gynt* his *Manfred*. Cochran shows that although Byron's best work is his satirical writing which is aimed in part at his earlier romantic material and its readership his self-correction was not taken on board by many European writers Pushkin being the exception and it was the gloomy Byronic Heroes who held sway. These were often read as revolutionaries but were in fact dead end. It was a mythical not a literary Byron whom people thought they had read. The book ends with chapters on three British writers who seem at last to have read Byron in their different ways accurately Eliot Joyce and Yeats.

A French Song Companion Graham Johnson, Richard Stokes, 2002. The French Song Companion is the most comprehensive book of French music in any language. The great accompanist Graham Johnson, a noted authority of song, provides repertoire guides to the work of some 150 composers, the majority of them from France but including British American German Spanish and Italian musicians who have written French vocal music. There are major articles on such figures as Fauré Duparc Debussy Ravel and Poulenc, substantial articles on Bizet Chabrier Gounod Chausson Hahn and Satie and reassessments of such composers as Massenet Koehler and Leguérney. A host of less celebrated figures who have contributed to the genre take their place in a book which is both informative and entertaining. The biographical articles are supplemented by the song translations of Richard Stokes, some 700 in all, and a veritable treasury of great French poetry from the fifteenth to the twentieth centuries. These stand in their own right as indispensable to music lovers concert goers and professional singers and their accompanists. This is a book which not only reflects the repertoire as found in today's concert halls but also encourages performers and armchair enthusiasts to explore the neglected highways and byways of an endlessly fascinating and highly civilised body of music.
