pure academia some conjecture and some are just whimsical as Ells takes a break from worrisome thinking and fighting with her body Beginning in 2016 she shares her thoughts on a variety of topics including the education system the health system her trials and her tribulations Ells also reveals the research she conducted about her disease and how it all works and doesn't work and she talks about support groups and the pharmaceutical game This memoir chronicles the journey of this public school creative writing teacher as she takes an in class daily activity of teaching teens and turns it into a personal log of symptoms and experiences Ells narrates how the pain inability to cope and misdiagnosis which skewed any normalcy were now in charge

My Family, My Self Sharon Ann Thorne, 2016-04-05 This is my first book and is intended for family and close friends The older I get the more I regret that I didn't ask my parents and grandparents more about their lives My grandmothers were in their 20s when women got the vote Did they care What did they think about that Nanas father died before she was born Her mother had to raise six young children in a small town in Texas in the late 19th century How did she manage To the dismay of her parents my mother eloped at 18 instead of going on to Stanford where she had been admitted Grandpa lost his mother at a young age and gained a stepmother that he apparently didn't like How did my grandparents meet and what attracted them to each other What kind of weddings did they have My questions are endless Ill never get them answered The stories would be precious to know In this spirit I offer these family stories for readers I know and for all others in the future

The Ritual Effect Michael Norton, 2025-05-20 In the bestselling tradition of Charles Duhigg's *The Power of Habit* and Angela Duckworth's *Grit* a renowned social psychologist demonstrates how a subtle turning of habits into rituals can clear a little space for everyday magic The Guardian in our lives Our lives are filled with repetitive tasks meant to keep us on track what we come to know as habits Over time these routines like brushing your teeth or putting on your right sock first tend to be performed automatically But when we're more mindful about these actions when we focus on the precise way they are performed they can instead become rituals Shifting from a habitual mindset to a ritual mindset can convert ordinary acts from black and white to technicolor Think about the way you savor a certain beverage the care you take with a particular outfit that gets worn only on special occasions the unique way that your family gathers around the table during holidays or the secret language you enjoy with your significant other To some these behaviors may seem quirky but because rituals matter so deeply to us on a personal level they give our lives purpose and meaning Drawing on a decade of original research Norton shows that rituals play a role in healing communities experiencing a great loss marking life's major transitions driving a stadium of sports fans to ecstasy and helping us rise to challenges and realize opportunities Compelling insightful and practical *The Ritual Effect* reminds us of the intention filled acts that drive human behavior and create surprising satisfaction and enjoyment

UNESCO on the Ground Michael Dylan Foster, Lisa Gilman, 2015-10-12 For nearly 70 years the United Nations Educational Scientific and Cultural Organization UNESCO has played a crucial role in developing policies and recommendations for dealing with intangible cultural heritage What has been the effect of such

sweeping global policies on those actually affected by them How connected is UNESCO with what is happening every day on the ground in local communities Drawing upon six communities ranging across three continents from India South Korea Malawi Japan Macedonia and China and focusing on festival ritual and dance this volume illuminates the complexities and challenges faced by those who find themselves drawn in different ways into UNESCO s orbit Some struggle to incorporate UNESCO recognition into their own local understanding of tradition others cope with the fallout of a failed intangible cultural heritage nomination By exploring locally by looking outward from the inside the essays show how a normative policy such as UNESCO s intangible cultural heritage policy can take on specific associations and inflections A number of the key questions and themes emerge across the case studies and three accompanying commentaries issues of terminology power struggles between local national and international stakeholders the value of international recognition and what forces shape selection processes With examples from around the world and a balance of local experiences with broader perspectives this volume provides a unique comparative approach to timely questions of tradition and change in a rapidly globalizing world

Hinduism - An Introduction Owen Cole,V P Hermant Kanit,2010-06-25 Hinduism with its rich variety of religious traditions can often be hard to define This book is an informative guide to those traditions and their underlying unity Covering all important aspects of Hinduism from deities and temples to mythology and philosophy and exploring what it means to lead a Hindu life this book will let you discover this fascinating religion and understand its relevance today NOT GOT MUCH TIME One five and ten minute introductions to key principles to get you started AUTHOR INSIGHTS Lots of instant help with common problems and quick tips for success based on the authors many years of experience TEST YOURSELF Tests in the book and online to keep track of your progress EXTEND YOUR KNOWLEDGE Extra online articles at www.teachyourself.com to give you a richer understanding of psychology FIVE THINGS TO REMEMBER Quick refreshers to help you remember the key facts TRY THIS Innovative exercises illustrate what you ve learnt and how to use it *Death Ritual in Late Imperial and Modern China* James L. Watson,Evelyn Sakakida Rawski,1988 During the late imperial era 1500 1911 China though divided by ethnic linguistic and regional differences at least as great as those prevailing in Europe enjoyed a remarkable solidarity What held Chinese society together for so many centuries Some scholars have pointed to the institutional control over the written word as instrumental in promoting cultural homogenization others the manipulation of the performing arts This volume comprised of essays by both anthropologists and historians furthers this important discussion by examining the role of death rituals in the unification of Chinese culture *Awkward Rituals* Dana W. Logan,2022-05-06 A fresh account of early American religious history that argues for a new understanding of ritual In the years between the American Revolution and the Civil War there was an awkward persistence of sovereign rituals vestiges of a monarchical past that were not easy to shed In *Awkward Rituals* Dana Logan focuses our attention on these performances revealing the ways in which governance in the early republic was characterized by white Protestants reenacting the

hierarchical authority of a seemingly rejected king With her unique focus on embodied action rather than the more common focus on discourse or law Logan makes an original contribution to debates about the relative completeness of America's Revolution Awkward Rituals theorizes an under examined form of action rituals that do not feel natural even if they sometimes feel good This account challenges common notions of ritual as a force that binds society and synthesizes the self Ranging from Freemason initiations to evangelical societies to missionaries posing as sailors Logan shows how white Protestants promoted a class based society while simultaneously trumpeting egalitarianism She thus redescribes ritual as a box to check a chore to complete an embarrassing display of theatrical verve In Awkward Rituals Logan emphasizes how ritual distinctively captures what does not change through revolution

The Lahu Minority in Southwest China

Jianxiong Ma, 2013-05-07 The Lahu with a population of around 470 000 inhabit the mountainous country in Yunnan Province bordering on Burma Laos and northern Thailand Buddhists with a long history of resistance to the Chinese Han majority the Lahu are currently facing a serious collapse of their traditional social system with the highest suicide rate in the world large scale human trafficking of their women alcoholism and poverty This book based on extensive original research including long term anthropological research among the Lahu provides an overview of the traditional way of life of the Lahu their social system culture and beliefs and discusses the ways in which these are changing It shows how the Lahu are especially vulnerable because of their lack of political representatives and a state educated elite which can engage with and be part of the government administrative system The Lahu are one of many relatively small ethnic minorities in China overall the book provides an example of how the Chinese government approaches these relatively small ethnic minorities

Who Do the Ngimurok Say That They Are? Kevin P. Lines, 2018-04-12 How do missiologists describe the cosmologies of those that Christianity encounters around the world Our descriptions often end up filtered through our own Western religious categories Furthermore indigenous Christians adopt these Western religious categories This presents the problem of local Christianities described by Kwame Bediako as those that have not known how to relate to their traditional culture in terms other than those of denunciation or of separateness Kevin Lines's phenomenological study of local religious specialists in Turkana Kenya not only challenges our Western categories by revealing a more authentic complexity of the issues for local Christians and Western missionaries but also provides a model for continued use of phenomenology as a valued research method in larger missiological studies Additionally this study points to the ways that local Christians and traditional religious practitioners interpret Western missionaries through local religious categories Clearly missionaries missiologists anthropologists and religious studies scholars need to do a much more careful job of studying and describing the contextually specific phenomena of traditional religious specialists before relying on meta categories that come out of our Western theology or older overly simplified ethnographies The research from this current study of Turkana religious specialists begins that process in the Turkana context and offers a model for future studies in contexts where traditional religion and

Christianity intersect Identity and Ritual in a Japanese Diving Village D. P. Martinez, 2004-04-30 Through her detailed description of a particular place Kuzaki cho at a particular moment in time the 1980s D P Martinez addresses a variety of issues currently at the fore in the anthropology of Japan the construction of identity both for a place and its people the importance of ritual in a country that describes itself as nonreligious and the relationship between men and women in a society where gender divisions are still very much in place Kuzaki is for the anthropologist both a microcosm of modernity and an attempt to bring the past into the present But it must also be understood as a place all of its own In the 1980s it was one of the few villages where female divers ama still collected abalone and other shellfish and where some of its inhabitants continued to make a living as fishermen Kuzaki was also a kambe or sacred guild of Ise Shrine the most important Shinto shrine in modern Japan home to Amaterasu the sun goddess Kuzaki s rituals affirmed a national identity in an era when attitudes to modernity and Japaneseness were being challenged by globalization Martinez enhances her fascinating ethnographic description of a single diving village with a critique of the way in which the anthropology of Japan has developed The result is a sophisticated investigation by a senior scholar of Japanese studies that while firmly grounded in empirical data calls on anthropological theory to construct another means of understanding Japan both as a society in which the collective is important and as a place where individual ambitions and desires can be expressed **WomanSpirit** ,1976

Womanhood In The Making Mary Hancock, 2019-05-20 Womanhood in the Making is an ethnographic study of Brahman women s ritual practice that focuses on relations between religious practice class and caste inequalities and nationalist discourses Using analyses of both domestic ritual and women s personal narratives the author investigates the spaces of female agency that ritual practice affords
