22 simple and useful tips

Inspect the pallet truck before use.

Always wear safety shoes.

Always inspect damage before it gets worse.

Never operate the truck with wet or slippery hands and avoid using slippery shoes.

Never allow a passenger to ride on the pallet truck and never hang on to or hold it up.

Never use the pallet truck as a crane.

Move the pallet truck carefully, steadily and smoothly. Avoid rapid acceleration and braking with short carefully planned courses.

No sharp, acute turns and no U-turns that keep the load on the control side. Never operate U-turn in a single step.

If working up banked areas drive.

On sloping floors, never drive to prevent the pallet truck from sliding or overturning.

Always maintain a safe distance from other operators, loading positions and the like. Watch out for other workers' dangerous!

Never turn by using the front wheel. Always use the rear wheel with a steering lock, and an emergency stop.

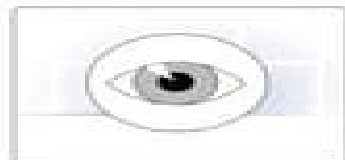

Only transport loads which fit within the capacity of the pallet truck.

Always use Toyota load and capacity tables.

Never work on slopes, or load of emergency stop or other safety, unless you receive a notice.

Always look in the direction you are driving and avoid to look down as far as possible. Watch out for the road.

No control with the battery and the controller. Always the condition of the battery regularly.

Only qualified personnel are allowed to do maintenance, adjustment and repairs.

The display should be used as error code. Read the operator's manual before using service.

In case of an emergency, press the emergency stop button.
