automatically retrieve source code from source control systems such as PVCS build applications by having Ant compile the necessary source files in the proper order Ant build files are written using XML a well established standard so programmers using Ant are not required to learn yet another scripting language They will likely already know XML and will be able to leverage that knowledge Ant is an open source project and part of the Jakarta project Jakarta is Sun's open source reference implementation for the JSP and Servlets specifications and is part of the Apache group's work
