The Decline and Fall of the Lettered City Jean FRANCO, Jean Franco, 2009-06-30 The cultural Cold War in Latin America was waged as a war of values artistic freedom versus communitarianism Western values versus national cultures the autonomy of art versus a commitment to liberation struggles and at a time when the prestige of literature had never been higher The projects of the historic avant garde were revitalized by an anti capitalist ethos and envisaged as the opposite of the republican state The Decline and Fall of the Lettered City charts the conflicting universals of this period the clash between avant garde and political vanguard This was also a twilight of literature at the threshold of the great cultural revolution of the seventies and eighties a revolution to which the Cold War indirectly contributed In the eighties civil war and military rule together with the rapid development of mass culture and communication empires changed the political and cultural map A long awaited work by an eminent Latin Americanist widely read throughout the world this book will prove indispensable to anyone hoping to understand Latin American literature and society Jean Franco guides the reader across minefields of cultural debate and histories of highly polarized struggle Focusing on literary texts by Garcia Marquez Vargas Llosa Roa Bastos and Juan Carlos Onetti conducting us through this contested history with the authority of an eyewitness Franco gives us an engaging overview as involving as it is moving

Reading Sounds Sean Zdenek, 2015-12-23 Imagine a common movie scene a hero confronts a villain Captioning such a moment would at first glance seem as basic as transcribing the dialogue But consider the choices involved How do you convey the sarcasm in a comeback Do you include a henchman s muttering in the background Does the villain emit a scream a grunt or a howl as he goes down And how do you note a gunshot without spoiling the scene These are the choices closed captioners face every day Captioners must decide whether and how to describe background noises accents laughter musical cues and even silences When captioners describe a sound or choose to ignore it they are applying their own subjective interpretations to otherwise objective noises creating meaning that does not necessarily exist in the soundtrack or the script Reading Sounds looks at closed captioning as a potent source of meaning in rhetorical analysis Through nine engrossing chapters Sean Zdenek demonstrates how the choices captioners make affect the way deaf and hard of hearing viewers experience media He draws on hundreds of real life examples as well as interviews with both professional captioners and regular viewers of closed captioning Zdenek s analysis is an engrossing look at how we make the audible visible one that proves that better standards

for closed captioning create a better entertainment experience for all viewers Soulsplitting LeRoy Flemming,2014-03-19

Videoland Daniel Herbert,2014-01-24 Videoland offers a comprehensive view of the tangible phase of consumer video when Americans largely accessed movies as material commodities at video rental stores Video stores served as a vital locus of movie culture from the early 1980s until the early 2000s changing the way Americans socialized around movies and collectively made movies meaningful When films became tangible as magnetic tapes and plastic discs movie culture flowed out from the theater and the living room entered the public retail space and became conflated with shopping and salesmanship In this process video stores served as a crucial embodiment of movie culture s historical move toward increased flexibility adaptability and customization In addition to charting the historical rise and fall of the rental industry Herbert explores the architectural design of video stores the social dynamics of retail encounters the video distribution industry the proliferation of video recommendation guides and the often surprising persistence of the video store as an adaptable social space of consumer culture Drawing on ethnographic fieldwork cultural geography and archival research Videoland provides a wide ranging exploration of the pivotal role video stores played in the history of motion pictures and is a must read for students and scholars of media history **3D Cinematic Aesthetics and Storytelling** Yong Liu,2018-07-05

New World War Mark M. Rich, A silent war is taking place in cities all over the planet It is covered up by the media mental health system NGOs and our elected officials Now that the financial elite are finished using the US military and allied forces to conquer nations in their quest for global domination they re neutralizing individuals and groups of resisters who live among the people To do this they have recruited a major portion of the civilian population which is used as a surrogate force to persecute those who have been identified as enemies As part of the same agenda the security forces are conducting psychological operations on civilians and torturing them with directed energy weapons The entire operation is in service to some very wealthy psychopaths who rule our society as part of a global revolution intended to result in a planetary dictatorship known as the New World Order

Culture Control Critique Frida Beckman, 2016-05-03 When revolution becomes a recurring theme in mainstream culture where do we look for the tools for a critical engagement with the present Addressing the link between allegory and cultural critique in contemporary culture and resisting the thematic abstraction of sexy fast revolutionary content this book suggests that one way is to pay attention not so much to content as to form Culture Control Critique provides an analysis of how representations of political systems in contemporary mainstream culture may be understood not so much by looking at their apparent critical message but by shifting our critical gaze to an underlying and recurring political logic that controls the desire for political change

Victimhood Discourse in Contemporary Israel Ilan Peleg, 2019-04-24 This book deals comprehensively with different aspects of collective victimhood in contemporary Israel but also with the wider implications of this important concept for many other societies including the Palestinian one The eight highly diverse scholarly chapters included in this volume offer analysis of the politics of victimhood viewing it as increasingly dominant within contemporary Israel assess victimhood as a focal point of the Jewish historical legacy trace the evolution and changes of Zionist thought as it relates to a sense of national victimhood study the possibility of the political transformation of victimhood through changing perceptions and policies by top Israeli leaders focus on important events that have contributed to the evolvment of the victimhood discourse in Israel and beyond e g the 1967 Six Day and 1973 Yom Kippur wars in the Middle East examine the politics and ideology of victimhood within the Palestinian national movement and offer new ways of progressing beyond

understanding of personal identity A key paradigm in *The Tango of Ethics* is the conflict and interplay between two fundamentally different ways of seeing and being in the world that of the intuitive human being who wants to lead a meaningful life and thrive and that of the detached rational agent who wants to prevent unbearable suffering from occurring Leighton aims to reconcile these two stances or motivations within a more holistic framework he labels xNU that places them at distinct ethical levels This approach avoids some of the flaws of classical utilitarianism including the notion that extreme suffering can be formally balanced out by enough bliss while maintaining a focus on impact He also identifies some of the limits of rationality and our dependence on intuitions to make ethical decisions The book explores the implications of this way of thinking for real world ethical dilemmas and how we might incorporate it into governance With societal collapse increasing totalitarianism and artificial general intelligence all very real threats in the coming years Leighton argues that it is as important as ever to promote these ethics and their implementation while there is still an opportunity for some convergence around what matters

Siren City Robert Miklitsch, 2011-02-01 Hailed for its dramatic expressionist visuals film noir is one of the most prominent genres in Hollywood cinema Yet despite the boom in sound studies the role of sonic effects and source music in classic American noir has not received the attention it deserves *Siren City* engagingly illustrates how sound tracks in 1940s film noir are often just as compelling as the genre's vaunted graphics Focusing on a wide range of celebrated and less well known films and offering an introductory discussion of film sound Robert Miklitsch mobilizes the notion of audiovisuality to investigate period sound technologies such as the radio and jukebox phonograph and Dictaphone popular American music such as hot black jazz and big numbers featuring iconic performers such as Lauren Bacall Veronica Lake and Rita Hayworth *Siren City* resonates with the sounds and source music of classic American noir gunshots and sirens swing riffs and canaries Along with the proverbial private eye and femme fatale these audiovisuals are central to the noir aesthetic and one important reason the genre reverberates with audiences around the world
