Planning Installation Priority

When planning the installation of a new system, it is important to consider the following factors:

1. **Location:** The location of the system should be chosen based on the needs of the business and the availability of space.
2. **Access:** The system should be easily accessible to the user and the service technician.
3. **Power:** The system should be connected to a power source that is suitable for the system's requirements.
4. **Environment:** The system should be installed in a clean, dry, and well-ventilated area.
5. **Security:** The system should be protected from theft and vandalism.

By considering these factors, you can ensure that the installation of your new system is a successful one.
